ASSIGNMENT

This is an assignment of rights from John Davies, Sandra Peters and Hein Tsoeng Ng to Exelixis Plant Sciences, Inc., and from Exelixis Plant Sciences, Inc. to Agrinomics, LLC.

WHEREAS, John Davies of 4617 S.E. Madison St. Portland, OR, 97215, USA, Sandra Peters of 5029 SE 40th Avenue, Portland, Oregon, 97202, USA, and Hein Tsoeng Ng of 12975 S.W. 19<sup>th</sup> Street, Beaverton, OR, 97008, USA (hereinafter "the inventors"), have previously entered into an agreement with Exelixis Plant Sciences, Inc., 16160 S.W. Upper Boones Ferry Road, Portland, Oregon, to assign all right, title and interest in and to any and all inventions made or conceived or reduced to practice during the course of employment with Exelixis Plant Sciences Inc. (hereinafter "EPS"), and further agreed to execute additional assignment documents to assist EPS with respect to its proprietary rights, and wherein, during the course of employment with EPS, have invented an invention entitled GENERATION OF PLANTS WITH ALTERED OIL CONTENT for which at least the following patent applications have been filed:

U.S. Provisional Patent Application No. 60/575,560, filed May 28, 2004, and  
Argentina Patent Application No. P050102207, filed May 27, 2005;

both of which are referred to hereafter as "the patent applications."

WHEREAS, Agrinomics LLC, (hereinafter "Agrinomics") and EPS, through EPS' predecessor Agritope, Inc., previously entered into an agreement dated July 1, 1999 (hereinafter "agreement") to prosecute and hold patent applications in the name of Agrinomics that pertain to discoveries made during a mutual collaboration relating to activation tagging in *Arabidopsis* (hereinafter "ACTTAG discovery(ies)").

WHEREAS, EPS owns all the right, title and interest to the ACTTAG discovery described and claimed in the patent applications.

WHEREAS, EPS is desirous of assigning said right, title and interest in said ACTTAG discovery and patent applications to Agrinomics, pursuant to said agreement, and whereas EPS has received good and valuable consideration for this assignment, the receipt and sufficiency whereof are hereby acknowledged.

WHEREAS, Agrinomics LLC, is desirous of acquiring the entire right, title, and interest in and to said ACTTAG discovery and patent applications and the patents to be obtained therefore.

## PATENT

NOW, therefore, and in consideration of employment and compensation paid the inventors by EPS, and other good and valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, the inventors have assigned to EPS and EPS' legal representatives, successors and assigns, the entire right, title, and interest (a) in and to said patent applications and said invention; (b) in and to all rights to apply for foreign patents on said invention; (c) in and to any and all applications filed and any and all patents granted on said invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, continuation or nonprovisional 37 CFR 1.53(b) application of any of said applications; and (d) in and to each and every reissue or extension of any of said patents.

The inventors have conveyed to EPS the entire right to make application in its own behalf for protection of said invention in countries foreign to the United States and where expedient to claim under the International Convention or other international arrangement for any such application the filing date of the said United States application (or other application if any there be) in priority to other applications; and have agreed at any time upon request, without further or additional compensation or additional consideration, but at the expense of EPS, to execute such additional assignments and other writings and do such additional acts as EPS may deem necessary or desirable or perfect EPS' enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, renewal, reissued or extended Letters Patent of the United States or of any and all foreign countries on said invention, and in enforcing any rights or chose in action accruing as a result of such application or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of the assigns and legal representatives of both parties.

EPS hereby accepts the assignment of rights in this invention from the inventors.

EPS hereby assigns to Agrinomics and Agrinomics' legal representatives, successors and assigns, all right, title, and interest that it now owns or shall hereafter acquire (a) in said applications and ACTTAG discovery; (b) to all rights to apply for foreign patents on said ACTTAG discovery; (c) to any and all applications filed and any and all patents granted on said ACTTAG discovery in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, continuation or nonprovisional 37 CFR 1.53(b) application of any of said applications; and (d) to each and every reissue or extensions of any of said patents; and EPS hereby authorizes and requests the patent office to issue said patents to Agrinomics. EPS agrees to execute such additional assignments and other writings and do such additional acts as may be necessary or desirable in order to perfect this grant to Agrinomics.

## PATENT

EPS hereby authorizes Agrinomics or its legal representative to insert in this instrument the filing date and serial number of any said application or any other information that may be necessary or desirable in order to comply with the rules of any patent office for recordation of this document.

Agrinomics hereby accepts the assignment of rights in this invention from EPS.

This assignment is effective May 27, 2005, with regard to Argentina Patent Application No. P050102207, and effective May 28, 2004, with regard to U.S. Provisional Patent Application No. 60/575,560 and all other rights described herein.
