PATENT ASSIGNMENT

This assignment made on January 12, 2007, by Barry R. Connelly of Carmel, CA and Jessica Haynes of Carmel, CA (Assignors) to Socket Saver Corporation, having a place of business at 19374 Acclaim Drive, Salinas, California 93908 (Assignee);

WHEREAS, Assignors have invented a new, original, and useful invention entitled ELECTRICAL SOCKET SHIM PLATE APPARATUS AND METHOD (Invention(s)), for which a Unites States patent application has been filed, further identified by application number 11/255,858 and Cislo & Thomas LLP's Docket No. 06-17182 (U.S. Patent Application);

WHEREAS, Assignors believe themselves to be the original, first, and joint inventors of the Invention(s) disclosed and claimed in the Patent Application(s); and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to said Invention(s), and said Patent Application(s) in the United States and throughout the world.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, their entire right, title, and interest in and to said Invention(s), and said Patent Application for said Invention(s) in the United States and throughout the world, including the exclusive right to

file any provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, foreign, or other application based on the Invention directly in the name of Assignee and to claim any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing said Patent Application(s) in the United States and throughout the world for said Invention(s), and for perfecting, recording, or maintaining the title of Assignee, their successors and assigns, to said Invention(s), and said Patent Application(s) filed, and any patents granted for said Invention(s) in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Patent granted for said Invention(s), whether on another patent or other application for said Invention(s), on said Patent Application(s), or on any subsequently-filed provisional, non-provisional, regular utility, divisional, continuation, continuation-in-part, reissue, or other patent application or other

application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention(s).

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date first above written and as set forth below.
