B. The Applications, including without limitation any of ASSIGNOR'S inventions that may be disclosed therein; all provisional and non-provisional applications claiming the benefit of the Applications that have been or may hereafter be filed by the ASSIGNEE in the United States or in any foreign county ("Related Applications"); all continuations, divisionals, and continuations in part of the Applications and any such Related Applications; and all U.S. and foreign patents which may be granted on the Applications and the Related Applications, and all reissues, re-examinations, and extensions of such patents;

C. Those items of ASSIGNOR'S tangible property embodying or describing the Invention, including without limitation all documents, drawings, prototypes, models, test results, designs, materials, computer programs and data, and the like, which, if not presently in the possession of ASSIGNEE, will be delivered to ASSIGNEE immediately upon request;

D. All causes of action for infringement of or damage to all rights related to the Invention, the Applications, and/or the Related Applications, whether accruing before or after the execution of this Assignment Agreement, and all legal rights to enforce the same against third parties and to retain the entire proceeds therefrom.

ASSIGNOR AGREES, without further consideration or compensation, to communicate to ASSIGNEE any facts or which ASSIGNOR has knowledge respecting the Invention, Applications, or Related Applications, testify in any legal proceeding, sign all documents, make all rightful oaths and declarations, and generally do everything possible to aid ASSIGNEE in obtaining and enforcing patents for the Invention in all countries.
