ASSIGNMENT BY INVENTORS

This Assignment is by Leonid Kalika; Alexander Berg; Gabi Abraham; and Cyrus Irani (the "Assignors"), residing at 2118 Wilshire Boulevard #609, Santa Monica, California 90403; 19790 Greenbriar Drive, Tarzana, California 91356; 5378 Sacramento Drive, Oak Park, California 91377; and 1445 Via Coronel, Palos Verdes Estates, California 90274, respectively. The Assignors have invented one or more certain inventions (the "Invention(s)") described in U.S. Patent Application No. 10/549,342, filed September 14, 2005, based on International PCT Application No. PCT/US04/09237, filed on March 24, 2004, designating the United States, entitled SELF-CONFIGURING, SELF-OPTIMIZING WIRELESS LOCAL AREA NETWORK SYSTEM.

Strix Systems, Inc., a Corporation of United States of America having its principal place of business at 26610 Agoura Road, Calabasas, California 91302 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to

issue any Patent of the United States that may be issued on the Invention(s) to Assignee.
This Assignment may be executed in counterparts.

Leonid Kalika
