

Form PTO-1595 (Rev. 09/04)
OMB No. 0651-0027 (exp. 6/30/2005)

U.S. DEPARTMENT OF COMMERCE
United States Patent and Trademark Office

RECORDATION FORM COVER SHEET **PATENTS ONLY**

Docket No.: 45992.007

To the Director of the U.S. Patent and Trademark Office: Please record the attached documents or the new address(es) below.

1. Name of conveying party(ies)/Execution Date(s):

Paul L. DeAngelis, Ph.D.

Execution Date(s) 02/06/2007

Additional name(s) of conveying party(ies) attached? ☐ Yes ☐ No

3. Nature of conveyance:

- ☒ Assignment ☐ Merger
☐ Security Agreement ☐ Change of Name
☐ Government Interest Assignment
☐ Executive Order 9424, Confirmatory License
☐ Other _____

2. Name and address of receiving party(ies)

Name: The Board of Regents of the University of Oklahoma

Name (cont.): _____

Street Address: 660 Parrington Oval

Room 119

City: Norman

State: OK

Country: US Zip: 73019

Additional name(s) & address(es) attached? ☐ Yes ☐ No

4. Application or patent number(s):

☐ This document is being filed together with a new application.

A. Patent Application No.(s)

10/142,143

B. Patent No.(s)

Additional numbers attached? ☐ Yes ☐ No

5. Name and address to whom correspondence concerning document should be mailed:

Name: DUNLAP, CODDING & ROGERS P.C.

Internal Address: P.O. Box 16370

Street Address: 1601 N.W. Expressway, Suite 1000

City: Oklahoma City

State: OK Zip: 73113

Phone Number: 405-607-8600

Fax Number: 405-607-8686

Email Address: _____

6. Total number of applications and patents involved:

1

7. Total fee (37 CFR 1.21(h) & 3.41) \$ 40.00

- ☒ Authorized to be charged by credit card
☐ Authorized to be charged to deposit account
☐ Enclosed
☐ None required (government interest not affecting title)

8. Payment Information

a. Credit Card Last 4 Numbers 1013

Expiration Date 01/11

b. Deposit Account Number _____

Authorized User Name _____

9. Signature:

PATENT

ASSIGNMENT

WHEREAS: Paul L. DeAngelis, an individual residing at 706 Sunnybrook Drive, Edmond, Oklahoma 73034 (hereinafter referred to as ASSIGNOR), has invented and owns a certain invention entitled: for which HEPARIN/HEPAROSAN SYNTHASE FROM *P. MULTOCIDA* AND METHODS OF MAKING AND USING SAME application for Letters Patent of the United States was filed May 8, 2002 and assigned U.S. Serial No. 10/142,143; and

WHEREAS: The Board of Regents of the University of Oklahoma, 660 Parrington Oval, Room 119, Norman, Oklahoma, 73019, a legal entity of the State of Oklahoma (hereinafter referred to as ASSIGNEE), is desirous of acquiring the entire interest in, to and under said invention and in, to and under Letters Patent or similar legal protection to be obtained therefor in the United States and in any and all foreign countries.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: in consideration of the receipt of good and valuable consideration, which is hereby acknowledged, and in reliance on the Patent Policy of The Board of Regents of the University of Oklahoma, adopted December 9, 1999, a copy of which is attached hereto as Exhibit A and made a part hereof, ASSIGNOR has sold, assigned and transferred, and by these presents do sell, assign and transfer unto said ASSIGNEE, the full and exclusive right to the invention in the United States and its territorial possessions and in all foreign countries and the entire right, title and interest in and to any and all Patent Applications and Patents which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries including the right to claim priority under any applicable provisions of the International Convention and the Patent Cooperation Treaty and to all Letters Patent or similar legal protection in the United States and its territorial possessions and in any and all foreign countries to be obtained for said invention by said application or any continuation, division, renewal, substitute or reissue thereof or any legal equivalent thereof in a foreign country for the full term or terms for which the same may be granted.

ASSIGNOR hereby authorizes and requests the Patent and Trademark Office Officials in the United States and any and all foreign countries to issue any and all of said Patents, when granted, to said ASSIGNEE, as the ASSIGNEE of ASSIGNOR'S entire right, title and interest in and to the same, for the sole use and enjoyment of said ASSIGNEE, its successors and assigns.

FURTHER, ASSIGNOR agrees that ASSIGNOR will communicate to said ASSIGNEE, or its representatives, any facts known to ASSIGNOR respecting said invention, and will testify in any legal proceedings, sign all lawful papers, execute all divisions, continuations, substitutions, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said Patents to be issued to said ASSIGNEE, make all rightful oaths and generally do everything necessary or desirable to aid said ASSIGNEE, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and in any and all foreign countries.

ASSIGNOR hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment and sale.

Dated:

2/6/07

Paul L. DeAngelis, Ph.D.

Exhibit A

THE BOARD OF REGENTS OF THE UNIVERSITY OF OKLAHOMA

INTELLECTUAL PROPERTY POLICY

PREAMBLE

The people of the State of Oklahoma may reasonably expect that their investments in the University will create new industry and enhance existing industry within the State and Nation. Such new industry creates greater employment opportunities for citizens of the State and the Nation and an improvement in their standard of living.

The creation and development of intellectual property at the University encourages new business and is key to creating strong University and industry partnerships. It is the responsibility of University employees to disclose intellectual property and to foster an entrepreneurial attitude within the work force by involving students in the creation of intellectual property. Intellectual property development shall be pursued in concert with, but subject to, the University's principal responsibilities of education and knowledge creation.

Therefore, it is in the best interest of the University to adopt a policy that encourages disclosure of discoveries and inventions and rewards such creative activity. To do so, the University policy must insure that creators of copyrightable works or trademarks and inventors share in any financial success enjoyed by the University through the creation and commercialization of intellectual property. The basic objectives of the University's policy concerning creative works, trademarks, discoveries, and inventions (i.e., intellectual property) include the following:

- 1) To maintain the University's academic policy of encouraging research, publication, and scholarship independent of potential gain from royalties or other income.
- 2) To make patented materials created pursuant to University objectives available in the public interest under conditions that will promote their effective utilization and commercialization.
- 3) To provide adequate incentive and recognition to faculty and staff through proceeds derived from their creative works, trademarks, discoveries, and inventions.

PATENTS

(The text below appears in the Norman Campus and Health Science Center Faculty Handbooks)

1. OWNERSHIP

All discoveries and inventions, whether patentable or unpatentable, and including any and all patents (domestic and foreign) based thereon and applications for such patents, which are made or conceived by any member of the faculty, staff, or student body of the University, either in the course and/or scope of employment for the University or substantially through the use of facilities or funds provided by or through the University shall be owned by and be the property of the Board of Regents except as described below. Lab notebooks, records, drawings, sketches, photographs or other images, models, biological specimens or materials, chemical samples, or any other materials

PATENT**REEL: 018864 FRAME: 0028**

needed to support the preparation, submission, prosecution, defense, or enforcement of a patent in the United States or other applicable jurisdiction, whether or not the University takes such action, shall also be owned by the Board of Regents.

Faculty, staff, and students having rights to discoveries/inventions prior to employment at the University of Oklahoma should notify the Office of Technology Development of such intellectual property so that ownership to any further development of that same intellectual property at the University of Oklahoma may be established, by written agreement, with the University Vice President for Technology Development. The Vice President for Technology Development shall consult with the Senior Vice President and Provost of the Health Sciences Center or his designee before entering a contract with faculty, staff, or students at the Health Sciences Center.

In the event faculty or staff make discoveries or inventions outside the course of and/or scope of employment and using no University facilities, equipment, or supplies, or if using such reimburses the University for this use in accordance with a prior written agreement with the University; in accordance with University policy, title to such discoveries or inventions shall remain in the inventor, provided the University Vice President for Technology Development determines that the discovery or invention was made under these conditions. The inventor shall nonetheless submit a disclosure form to the Office of Technology Development. This disclosure shall contain sufficient information to enable the University Vice President for Technology Development to make a determination. If confidential information is required, the University will sign a nondisclosure agreement for purposes of this review. Should the University Vice President for Technology Development determine that the University does have a proprietary interest, a more complete disclosure may be required before making a decision in regard to title, the University Vice President for Technology Development shall consult with the Senior Vice President and Provost of the Health Sciences Center when the faculty member is based at the Health Sciences Center. If it is determined that the University has an interest, the provisions of this policy shall then be applicable. Appeals of such determinations may be made to the Faculty Appeals Board and then to the President.

All rights in and to discoveries and inventions described above shall be disclosed to and assigned to the Board of Regents as a specific condition of employment with the University and admission to and/or attendance at the University. Faculty, staff, and students shall execute any and all documents the University deems reasonably necessary to evidence such ownership, meet its legal obligations and effect patent protection, domestic and foreign, for the University or its nominee. All costs involved in obtaining and maintaining patent protection shall be borne by the University or its nominee.

The University agrees to act in good faith with respect to the determination of ownership.

2. REVENUE

The gross revenues (which shall include but not be limited to, cash and equity) received by the University from the licensing, sale, or commercialization of a University discovery or invention as described in Section 1, will be distributed among the discoverer(s)/inventor(s), his/her/their primary department(s), and the University, in accordance with the following formula:

PATENT

REEL: 018864 FRAME: 0029

4. ADMINISTRATION

The President, after consultation with the University Vice President for Technology Development and appropriate campus officials, shall determine the disposition of University discoveries and inventions described in Section 1, as deemed prudent and consistent with the University's mission to ultimately convey the benefits of its research to the public for the general welfare of the State and Nation. In determining the proper disposition of University discoveries and inventions, the President shall consult as necessary with scientific and/or technical and/or business subject matter experts in fields appropriate to the discovery or invention under consideration. Among other choices, the President may:

License the discovery and/or invention to third parties to provide for the further development and/or commercialization of the property;

Transfer the discovery and/or invention for commercialization by entering into commission agreements with third parties to identify potential licensees to further develop and commercialize the property;

Transfer rights to the property to a patent service organization to further develop and commercialize the property;

Allow rights (U. S. and/or foreign) to the discovery or invention to revert back to the federal agency that funded the development of the discovery;

Transfer rights (U. S. and/or foreign) to the discoverer(s)/inventor(s) if requested by the discoverer(s)/inventor(s), and the President determines that the discovery/invention will not be pursued further by the Office of Technology Development.

If federal funds were used in the development of the discovery/invention, such transfer of rights is subject to a reversionary right in the Federal government as described in 37 CFR 401.

- 1) Such transfer also shall be subject to an irrevocable, non-exclusive, royalty-free, and world-wide right and license in the University to make, use, and/or practice the discovery or invention for University education, research, and/or service purposes. The University also reserves the right to publish and or present information and data obtained in the research project resulting in the discovery or invention being transferred, assuming such rights do not jeopardize the discoverer's/inventor's patent rights. Faculty, staff, and students shall execute any and all documents, as the University deems reasonably necessary to confirm or enforce such reserved right and license.
- 2) Such transfer shall be limited to the discovery or invention duly disclosed to the University, in writing, as of the time the transfer is requested by the discoverer/inventor;
- 3) Transfer rights to the discovery and/or invention to the person(s) or entity sponsoring the research in the course of which the discovery or invention was made if such action is required under the terms of the research agreement or is required by law; or

PATENT

REEL: 018864 FRAME: 0032

- 4) Transfer the discovery and/or invention into the public domain through publication of the invention by the discoverer/inventor.
- 5) All transfers of University discoveries or inventions shall be subject to and contingent upon any rights in third parties as may be governed and/or required by, among other things, sponsored research agreements, other third-party contracts, or law.

The University Vice President for Technology Development shall be responsible for administering the patent affairs of the University in a manner consistent with this policy. The University Vice President for Technology Development shall cooperate with the appropriate campus officers to establish written policies to be approved by the President and distributed to the faculty, staff, and students of the University, governing procedures to be followed in processing discoveries and inventions generated within the University. The Office of Technology Development shall provide information regarding disposition of specific discoveries/inventions to the inventor(s) no later than six months from the date the discovery/invention is marketed by the Office of Technology Development. If the Office of Technology Development is not going to pursue marketing and/or protecting the invention, rights in and to the discovery/invention shall revert to the inventor(s) upon his/her request.

When it is in the best interest of the University to get its technology into the marketplace, when the longer-term opportunity for returns to the University and the State exceed the short-term value of not taking equity, then the President will approve taking equity. As a matter of principle, some equity is desirable in all transactions to create the best opportunity for the University and the State of Oklahoma to get a fair return on the technologies transferred from the University to the marketplace.

5. DISCLOSURE

It is the responsibility of faculty, staff, or students of the University to report all inventions they may develop during their term of employment or registration as a student.

Any discovery/invention, whether or not patentable, must be reported to the University by filing an Invention Disclosure Form with the appropriate technology development office. Such Invention Disclosure Form shall provide sufficient information so that the Office of Technology Development, in conjunction with others, can determine its commercial potential and patentability. Although the maintenance of the laboratory notebooks that describe the discovery/invention is the responsibility of the discoverer/inventor, the Office of Technology Development may require access to such notebooks at any time throughout the prosecution and maintenance stage of patenting the discovery/invention.

6. APPLICATION

The provisions of this Patent Policy, as may be amended from time to time, shall apply to all faculty, staff, and students. Any licensing revenues received throughout the duration of such license shall be distributed in accordance with the distribution policy in effect at the time of the signing of

PATENT

REEL: 018864 FRAME: 0033

such license and can only be changed through mutual agreement of the parties receiving portions of such revenue.

7. UNIVERSITY PATENT COMMITTEES

The University shall have a Patent Committee for each campus that shall consider and investigate disputes among administrators, faculty, or staff, and students and shall recommend appropriate solutions to the President. It shall be convened as needed, but not less than three times per academic year. This Committee will consist of one student member appointed by the Graduate Student Senate for one year; two staff members, one appointed by the President and one appointed by the Staff Senate; and five faculty members, three appointed by Faculty Senate and one each by the President and the University Vice President for Technology Development. All staff and faculty appointments are for three-year terms. This Committee will assist the University Vice President for Technology Development in setting policy and procedures that will be implemented on a daily basis by the Office of Technology Development staff. The Committee will provide a forum for faculty, staff, and students to present any issues such as, but not limited to, revenue sharing, ownership, etc. The Committee will make recommendations to the University Vice President for Technology Development for the handling of these issues. The Director of the respective campus' Office of Technology Development, the respective campus' Vice Presidents for Research, and University Legal Counsel shall serve as ex-officio members of the Committee.

8. USE OF FACILITIES

As outlined in the Oklahoma Technology Transfer Act of 1998, use of the facilities of the University by a business enterprise or private business entity is allowed when that project involves the research or development of a University technology, whether or not the technology is protected pursuant to federal or state law governing intellectual property, the results of which have potential economic and academic value for the University. Such use of University facilities must be on a "space-available" arrangement in which normal University activities are not displaced. The use of such facilities by a business enterprise or private business will be done on a fee-for-service contract and in conjunction with projects where the University has a vested interest in the outcome of the transfer of University technology, through research and development of a discovery/invention for commercialization purposes or scholarly rewards, or where it furthers the University's teaching, research and creative/scholarly activity, and professional and University service and public outreach missions.

The University may acquire an equity stake in such business enterprises or private businesses in consideration for the use of such facilities and/or the development of University discoveries/inventions which shall be managed in accordance with the University's policies on stock acquisition and management. Any cash revenues received from the sale or trade of such equity stocks shall be distributed as if received as royalty income. If the equity interest is acquired through an exchange of value other than money and the exchange of value is made in connection with the development of technology by the private business enterprise through the use of the facilities or resources or both of an institution within the Oklahoma State System of Higher Education, acquisition of an equity interest shall be permissible through the use of the facilities, premises, or assets of an institution within the Oklahoma State System of Higher Education through the use of faculty or staff expertise or student expertise, including the value of time expended by faculty, staff, or students upon developing a technology in connection with a private business enterprise or private

PATENT

REEL: 018864 FRAME: 0034

- 3) To provide adequate incentive and recognition to faculty, and staff through proceeds derived from their works.
- 4) To stimulate creativity across all media.

2. POLICY

It is the policy of the Board of Regents that all rights in copyright shall remain with the creator of the work unless the work is created with substantial use of University resources, is specifically assigned or commissioned by the University, is subject to non-University contractual or legal obligations, or is a "work made for hire" as that term is defined by U.S. Copyright Law.

3. OWNERSHIP

Scholarly/Aesthetic Works.

In keeping with traditional academic practice and policy, ownership of copyrights to works of artistry or scholarship in the creator's professional field such as textbooks, course materials, scholarly papers and articles, software and other computer materials when they are works of artistry or scholarship, novels, poems, paintings, musical compositions, or other such works of artistic imagination produced by University employees who have a general obligation to produce such works where the specific choice, content, course, and direction of the effort is determined by the employee without direct assignment or supervision by the University shall reside in the creators and the works shall not be deemed "works made for hire" under this policy unless they are also sponsored/contracted works or specifically assigned by the University. Copyrighted courseware and/or software that are not associated with traditional works as described above shall fall under and are subject to the Intellectual Property Policy. The general obligation of faculty to produce scholarly works does not constitute specific assignment. Upon request by the University, the creator(s) will grant the University a nonexclusive, free of cost, world-wide right and license to exercise all copyright rights in and to the work, except the right to commercially display, use, perform, or distribute copies of the work, unless to do so would impair the ability of the creator to have the work published or distributed. If a use of the work by University is reasonably determined by the creator to impair the exercise of such rights, the University shall discontinue the impeding use but otherwise shall remain free to use the work as provided in this paragraph. Subject to the approval of the University Vice President for Technology Development, the University will assist any University employee wishing to commercially exploit a scholarly/aesthetic work falling under this paragraph, through the Office of Technology Development and its respective campus officers. In such cases, the University will normally own the work and the provisions of the Intellectual Property Policy shall apply.

Personal Works.

Ownership of copyrights to works prepared outside the course and scope of University employment and without the substantial use of University resources (equipment, facilities, services, or funds--regardless of source--administered by and/or under the control of the University) shall reside with the creators; provided, the provision of office facilities, limited secretarial assistance,

PATENT

REEL: 018864 FRAME: 0036

library facilities for which special charges are not normally, made, or other resources which are made available to the public without charge, shall not be considered substantial use of University resources.

Sponsored Works.

Ownership of copyrights to works produced by or through the University in the performance of a written agreement between the University and a third-party/sponsor shall be governed in accordance with the agreement. If the agreement is silent in that regard, ownership shall be governed by the other provisions of this policy.

Commissioned Works.

Ownership of copyrights to works produced for University purposes by persons not employed by the University or by University employees outside their regular University employment (commissioned works) normally shall reside with the University. In all cases, copyright ownership shall be specified in a written agreement approved by University Legal Counsel signed by the parties. Any commissioned work agreement which provides for ownership by other than the University shall also provide, to the fullest extent possible, that the University will have an irrevocable, free-of-cost, non-exclusive, world-wide license to exercise all copyright rights in and to the work, except the right to commercially display, use, perform or distribute copies of the work unless to do so would impair the ability of the University employee creator to commercially or professionally exploit the work. If a use of the work by University is reasonably determined by the University employee creator to impair the exercise of such rights, the University shall discontinue the impeding use but otherwise shall remain free to use the work as provided in this paragraph.

University Works.

Except as otherwise provided in this policy, the University shall own all copyrights to works made by University employees in the course and scope of their employment and shall own all copyrights to works made with the substantial use of University resources. Provided, the University shall give due regard to the creator's interests in the quality and integrity of the work and, where appropriate, shall grant recognition for creation of the work. To the extent consistent with University rights under the U.S. copyright law, nothing herein shall be construed to prevent the creator from using his or her knowledge, expertise, research, and creative achievement in other employment.

Student Works.

Ownership of copyrights to works produced by enrolled students without the use of University funds (other than Student Financial Aid) or resources that are produced outside any University employment and are not sponsored or commissioned works, shall reside with the student creator(s). Provided, however, in all cases a student's graduate thesis or dissertation shall be deemed a student work under this policy. As a condition of enrollment and awarding a degree, the University reserves an irrevocable, non-exclusive, free-of-cost and world-wide right to reproduce in any media and distribute to the public, on a non-commercial basis, copies of said theses and dissertations, unless to

PATENT

REEL: 018864 FRAME: 0037

do so would impair the ability of the creator to commercially or professionally exploit the work. If a use of the work by University is reasonably determined by the creator to impair the exercise of such rights, the University shall discontinue the impeding use but otherwise shall remain free to use the work as provided in this paragraph.

Jointly Originated Works.

Ownership of copyrights to jointly originated works shall be determined by separately assessing the category of work of each creator under this Section 3. Rights between joint owners of a copyright shall be determined pursuant to copyright law or by agreement between the owners of the work.

4. REVENUE SHARING

The University may assign or license its copyrights to others. The University shall share royalty revenue derived from such assignment or license (excepting commissioned works and sponsored research funding) which it receives through copyrights with the creators, as provided for in the Patents section above.

Notwithstanding the above or anything else to the contrary herein, staff employees are not eligible to share revenues received from University-owned copyrights where such employees create copyrightable works as a part of their normal responsibilities of University employment. Provided, a staff employee may apply to the appropriate Senior Vice President and Provost to be treated as a faculty member for purposes of revenue sharing for a work resulting from a specific project upon a showing that his/her duties and responsibilities in that project are, in practical effect, substantially the same as those of a faculty member.

5. ADMINISTRATION

Release to the Creator.

An individual creator of a University-owned work may seek transfer of the University-owned copyright to him/herself by making written request to the appropriate Senior Vice President and Provost. If the University decides not to exploit such work, then it may transfer the copyright, by written agreement, to the individual creator to the extent consistent with any applicable third-party agreement or law. Provided, such transfer shall be subject to an irrevocable, non-exclusive, free-of-cost and world-wide license in the University to exercise all rights under the copyright in the work except the right to publicly distribute copies for commercial purposes or such other conditions as may be agreed upon in writing between the individual creator(s) and the Senior Vice President and Provost, unless to do so would impair the ability of the creator to have the work published or distributed. If a use of the work by the University is reasonably determined by the creator to impair the exercise of such rights as transferred in the agreement, the University shall discontinue the impeding use but otherwise shall remain free to use the work as provided in this paragraph.

PATENT

REEL: 018864 FRAME: 0038

Disclosure and Protection.

An individual creator of a University-owned copyrightable work shall protect the work by placing the following statutory copyright notice on all copies thereof: ("Copyright [insert year produced, e.g., 2000], the Board of Regents of the University of Oklahoma."). If the creator believes the work may have commercial value, he or she shall promptly provide written disclosure of the work to the appropriate Senior Vice President and Provost.

Legal Compliance

Any work created by a University employee or student shall not, to the best of the creator's knowledge and informed belief, infringe on any existing copyright.

Creators of copyrightable works subject to this policy and the University shall cooperate as reasonably necessary to effect the terms of this policy. For example, if copyright to a work of scholarship vests in the University by law, the University will, upon request and to the extent consistent with its legal obligations to third parties, promptly execute such documents as will transfer copyright to the faculty creator(s).

The Senior Vice President and Provosts shall be responsible for administering the copyright affairs of the University in a manner consistent with this policy. They shall cooperate in consultation with the Copyright Committee on each campus to establish written directives to be approved by the President and distributed to the employees and students of the University, which shall govern the procedures to be followed in processing copyrighted works created within the University.

The University does not act as a fiduciary for any person concerning consideration received under the terms of this policy.

The University Vice President for Technology Development may negotiate ownership of copyrighted works with research sponsors when it is in the best interest of the University to do so. Otherwise, all rights are as described above.

Faculty having rights to copyrighted works prior to employment at the University should notify the Office of Technology Development of such intellectual property so that ownership to any further development of that same intellectual property at the University may be established, in a written agreement with the University.

PATENT

REEL: 018864 FRAME: 0039

6. APPLICATION

The provisions of this copyright policy, as may be amended from time to time, shall apply to all faculty, staff, and students.

7. RESOLUTION OF CONFLICT

Should disputes arise relative to the ownership of copyright between the creator and the University, the matter will be referred to the Copyright Committee, which will make recommendations to the President for proper resolution of the disputes. Either the University or creator may contact the Senior Vice President and Provost to arrange to have the Copyright Committee meet to consider such disputes.

8. UNIVERSITY COPYRIGHT COMMITTEES

The University shall have a Copyright Committee for each campus that shall consider and investigate disputes among administrators, faculty, staff, or students and shall recommend appropriate solutions to the President. The Committee's responsibilities shall include, but not be limited to, disputes concerning:

Ownership of copyright; and

Terms of commissions.

The Copyright Committee of each campus shall have as its members:

One member appointed by the President for a four-year term;

One student member appointed by the Graduate Student Senate for one year;

Two staff members, one appointed by the President, one appointed by the Staff Senate; all appointments are for three years; and

Three faculty members, two appointed by the Faculty Senate and one by the President. All appointments are for three-year terms. Tie votes will be settled by chair of Faculty Senate, who shall be an ex-officio member of the Committee.

Each member of the Copyright Committee shall have one vote. The Copyright Committee shall keep its own records, determine its own procedures, and elect its own chair, who shall report to the President. The Copyright Committee also may review this policy from time to time and may recommend changes to the President.
