- (2) 7 Boulevard des moulins, 13620 Carry-le-Rouet, France, and
- (3) 42, Chemin des bastides, 06130 Grasse, France

have made an invention entitled:

**Systems and Methods for Applying Evolutionary  
Search to Generate Robust Search Strategies**

and have made application for United States Letters Patent therefor, the same having been filed in the United States Patent and Trademark Office on November 15, 2006 as United States Patent Application No. 11/600,529; and

WHEREAS, ILOG S. A., a corporation organized and existing under the laws of France, and having an office and place of business at 9 rue de Verdun, BP 85, Gentilly Cedex 94253, France, is desirous of acquiring the entire interest in said invention, said United States patent application, and in any Letters Patent which may issue thereon;

NOW, THEREFORE, be it known that for and in consideration of the sum of One Dollar (\$1.00) to us paid, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, we do hereby sell, assign, and transfer unto the said ILOG S. A., its successors, assigns, and legal representatives, all right, title, and interest in and to said invention and any improvements thereon for all countries of the world, and in and to said application, including any continuations and

divisions thereof, and any substitute applications therefor, and any patent which may issue thereon, and any reissues of the same; and all right, title, and interest in and to every patent application filed on said invention in any other country, including renewals, revivals, continuations, and divisions thereof, and any substitute applications therefor, and any and all patents which may issue thereon, and any reissues and extensions of the same; and we hereby authorize and request competent authorities to grant and issue any and all patents on said invention to the said ILOG S. A. as the assignee of the entire interest therein; and we further agree to execute upon request of the assignee such additional documents, if any, as are necessary and proper to secure patent protection on said invention throughout all countries of the world, and otherwise to give full effect to and perfect the rights of the assignee under this Assignment.
