ASSIGNMENT OF PATENTS AND RELATED APPLICATIONS

WHEREAS, Lynntech, Inc., a corporation under the laws of the State of Texas, having a place of business at 7607 Eastmark Drive, Suite 102, College Station, Texas 77840 (hereinafter referred to as Assignor), has all rights, title and interest to U.S. Patent 5,845,485 entitled “Method and Apparatus for Injecting Hydrogen Into a Catalytic Converter”, which issued on December 8, 1998; and

WHEREAS, Lynntech Power Systems, Ltd., a Limited Partnership of the State of Texas, having a place of business at 7607 Eastmark Drive, Suite 102, College Station, Texas 77840 (hereinafter referred to as Assignee), desires to acquire the entire right, title and interest in and to said Patent (hereinafter referred to as the Patent), any pending or yet to be filed continuation applications, divisional applications, and continuation-in-part applications claiming priority from the Patents (hereinafter referred to as Applications), the inventions disclosed therein (hereinafter referred to as Inventions), and in and to all embodiments of the Inventions, heretofore conceived, made or discovered by said Assignor, and in and to any and all patents, inventor's certificates and other forms of protection thereon granted in any and all countries and groups of countries.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Assignor to have been received in full from said Assignee:

1. Said Assignor hereby sells, assigns, transfers and conveys to Assignee the full and exclusive right, title and interest (a) in and to said Patents and said Inventions; (b) in and to all rights to apply for patents on said Inventions in any and all countries pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all Applications filed and any and all Patents granted on said Inventions in any and all countries and groups of countries, including each and every Application filed and each and every Patent granted on any application which is a division, substitution, or continuation of said Applications; and (d) in and to each and every reissue or extension of any of said Patents or Applications.

2. Said Assignor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest to said Inventions herein conveyed in any and all countries and groups of countries. Such cooperation by said Assignor shall include prompt production of pertinent facts and documents, giving testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said Applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said Inventions; (d) for filing and prosecuting applications for reissuance of any of said Patents; (e) for interference or other priority proceedings involving said Invention; and (f) for legal proceedings involving said Inventions and any application therefor and any patents granted thereon, including without limitation opposition
proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Assignor in providing such cooperation shall be paid for by said Assignee.

3. The term and covenants of this agreement shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Assignor, his respective heirs, legal representatives and assigns.

4. Said Assignor hereby warrants and represents that he has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Assignor has executed and delivered this instrument to said Assignee on the dates indicated below.
