ASSIGNMENT

COPY

WHEREAS, we, Mickie Bhatia and Joaquin Madrenas, whose full post office address is provided below, have along with Iris A. Ferber and Anish Sen Majumdar of Geron Corporation, made certain inventions that are described in an application for Letters Patent in the United States entitled "Using Undifferentiated Embryonic Stem Cells to Control the Immune System", Serial No. 10/949,702, filed on September 24, 2004, and

WHEREAS, Roberts Research Institute (herein referred to as "Assignee"), a Canadian non-profit organization having a place of business at 100 Perth Drive, London, Ontario, N6A 5K8, Canada, is desirous of acquiring our entire interest in said inventions throughout the United States of America and the territories thereof, for all other countries and under all international agreements.

NOW, THEREFORE, in accordance with the Commercial Relations Policy for Roberts Research Institute, for and in consideration of One Dollar (\$1.00), and for other good and valuable consideration, receipt whereof is hereby acknowledged, we hereby sell, assign and transfer unto said Assignee, its successors and assigns, the entire right, title and interest throughout the United States of America and the territories thereof, for all foreign countries and under all international agreements in and to said inventions, the aforesaid application, all other applications hereafter filed in the United States, in any other country, or under any international agreement based in whole or in part on said inventions, and all Letters Patents granted upon said applications by the United States, by any other country or under any international agreement, and we do hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to said Assignee. We further grant to said Assignee, its successors and assigns, the right to claim for any of said application the full benefits and priority rights of any international agreement between the United States and any foreign country or countries or between any other countries.

We hereby warrant that we have the full right to make the conveyance herein, and we hereby covenant that we, our heirs, legal representatives and assigns, will when requested, communicate to said Assignee, its representatives, successors and assigns, all facts known respecting such inventions, execute all documents required for the filing and prosecution of all divisional, continuing, reissue, reexamination and foreign or international applications, together with individual assignments therefor, make all rightful oaths, sign all lawful papers, testify in any legal proceeding and generally do everything required to aid said Assignee, its successors and assigns, in the obtaining of Letters Patent.

IN TESTIMONY WHEREOF, we have hereunto set our seal at the location and on the date indicated with our signature.

# ASSIGNMENT COPY

WHEREAS, we, Mickie Bhatta and Joaquin Madrenas, whose full post office address is provided below, have along with Iris A. Ferber and Anish Sen Majumdar of Geron Corporation, made certain inventions that are described in an application for Letters Patent in the United States entitled "Using Undifferentiated Embryonic Stem Cells to Control the Immune System", Serial No. 10/949,702, filed on September 24, 2004, and

WHEREAS, Roberts Research Institute (herein referred to as "Assignee"), a Canadian non-profit organization having a place of business at 100 Perth Drive, London, Ontario, N6A 5K8, Canada, is desirous of acquiring our entire interest in said inventions throughout the United States of America and the territories thereof, for all other countries and under all international agreements.

NOW, THEREFORE, in accordance with the Commercial Relations Policy for Roberts Research Institute, for and in consideration of One Dollar (\$1.00), and for other good and valuable consideration, receipt whereof is hereby acknowledged, we hereby sell, assign and transfer unto said Assignee, its successors and assigns, the entire right, title and interest throughout the United States of America and the territories thereof, for all foreign countries and under all international agreements in and to said inventions, the aforesaid application, all other applications hereafter filed in the United States, in any other country, or under any international agreement based in whole or in part on said inventions, and all Letters Patents granted upon said applications by the United States, by any other country or under any international agreement, and we do hereby authorize and request the Commissioner of Patents and Trademarks to issue said Letters Patent to said Assignee. We further grant to said Assignee, its successors and assigns, the right to claim for any of said application the full benefits and priority rights of any international agreement between the United States and any foreign country or countries or between any other countries.

We hereby warrant that we have the full right to make the conveyance herein, and we hereby covenant that we, our heirs, legal representatives and assigns, will when requested, communicate to said Assignee, its representatives, successors and assigns, all facts known respecting such inventions, execute all documents required for the filing and prosecution of all divisional, continuing, reissue, reexamination and foreign or international applications, together with individual assignments therefor, make all rightful oaths, sign all lawful papers, testify in any legal proceeding and generally do everything required to aid said Assignee, its successors and assigns, in the obtaining of Letters Patent.

IN TESTIMONY WHEREOF, we have hereunto set our seal at the location and on the date indicated with our signature.
