PATENT ASSIGNMENT AND AGREEMENT

This Patent Assignment and Agreement (this "Assignment") is made and entered into effective as of the 28th day of February, 2007, by and between General Ribbon Corp., a California corporation ("Assignor"), and GRC Acquisition Company, LLC, a Delaware limited liability company ("Assignee").

Introduction

A. WHEREAS, Assignor is the owner of the patents and patent applications listed on Schedule A, attached hereto, and any and all applications thereon, and any and all Letters Patent(s) therefrom, and any and all reissues, extensions, renewals, reexaminations, divisions and continuations of such applications or Letters Patent(s), and any and all foreign counterpart patents, applications, reissues, extensions, renewals, reexaminations, divisions, and continuations (collectively, the "Patents").

B. Assignee desires to acquire, and Assignor desires to transfer to Assignee, the entire right, title and interest in, to and under the Patents.

Assignment And Agreement

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Assignor hereby sells, assigns, transfers, conveys and sets over to Assignee the entire right, title and interest in the Patents, for the United States of America and throughout the world, to the full end of the term or terms for which such Patents issue, such entire right, title and interest to be held and enjoyed by the Assignee the same as they would have been held and enjoyed by Assignor had this assignment and sale not been made. Without limiting the generality of the foregoing, Assignor hereby sells, assigns, transfers, conveys and sets over unto Assignee all causes of action and rights to bring suit for past infringement of the Patents.
2. Assignor hereby agrees to execute and deliver at Assignee's direction or request any and all additional documents that Assignee determines may be necessary or desirable, or that may be required under federal or state law, to preserve and protect, and to perfect Assignee's ownership of, the Patents, including but not limited to: (i) all documents the Assignee deems necessary or expedient in connection with the application(s) and any continuing, divisional, reissue, reexamination or corresponding application(s), (ii) separate assignments in connection with such applications as the Assignee may deem necessary or expedient, and (iii) all documents that Assignee deems necessary or expedient in connection with any interference which may be declared concerning any of the Patent. . Assignor further agrees: (x) to pay any filing or other governmental fees and charges that became due and payable prior to the date hereof in connection with any filing, application or renewal related to any of the Patents, and (y) to cooperate with the Assignee in every way possible in obtaining evidence and going forward with any interference that may affect any of the Patents.

3. Assignor hereby represents, warrants and covenants that it has full right to convey the entire interest herein assigned, and that it has not executed, and will not execute, any agreement or instrument in conflict therewith.
4. Assignor hereby authorizes and requests any official throughout the world whose duty it is to register and record ownership in intellectual property rights, including the Patent and Trademark Office of the United States, to record Assignee as the assignee and owner of the Patents.
5. Assignor hereby grants to Assignee a power of attorney (which power is hereby acknowledged and agreed to be coupled with an interest and irrevocable) and appoints Assignee to serve as its agent and attorney-in-fact, with powers of substitution, in each case for the limited purposes of executing and delivering such documents and doing such acts in Assignor's place and stead as Assignor would otherwise be obligated to do pursuant to paragraph 2 above.
6. This Assignment shall be governed by, and construed in accordance with, the laws of the State of Illinois, without regard to any conflict of laws provisions.
