## ASSIGNMENT OF PATENT RIGHTS

The undersigned assignor (together, the "*Assignor*") has invented and wish to assign the invention and improvement described and disclosed in the Applications and/or Patents described below (the "*Inventions*") and Bekey Designs, Inc., 4624 Quarter Charge Drive, Annandale, Virginia 22003 ("*Assignee*"), desires to acquire the entire right, title and interest in and to the assets and rights convey, assigned, and transferred pursuant to this Assignment of Patent Rights, made effective as of March 31, 2003 (this "*Assignment*").

Therefore, for valuable consideration, the receipt and sufficiency of which Assignors acknowledge, each Assignor hereby irrevocably and unconditionally conveys, assigns, and transfers to Assignee, the full extent of his/her right, title, and interest in and to any and all of the following (the "*Rights*"):

- The Inventions and all rights in any country of the world with respect to the Inventions;
- United States patent number 6,888,515 and all letters patent, United States patents or other governmental grants or issuances that may be granted or issue with respect to the Inventions (the "*Patents*");
- United States patent application number 10/404,871 (filed 3/31/2003) and all divisions, continuations (in whole or in part), substitutions, renewal, or other applications claiming priority rights from the Patents and/or any such applications (the "*Applications*");
- All reissues, requests for continuing examinations, reexaminations, extensions or registrations of the Applications and/or the Patents;
- All non-United States patents, patent applications, and counterparts with respect of the Inventions, the Applications, and the Patents including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee;
- The right to claim priority rights deriving from the Patents and/or Applications and for Assignee to otherwise avail itself of the provisions of the international conventions governing the protection of inventions;
- All causes of action, remedies and other enforcement rights related to the Applications, the Inventions, and the Patents (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Applications, the Inventions, and the Patents);
- All rights to collect royalties and other payments under or on account of any of the Applications, the Inventions, and the Patents;
- Any and all other rights and interests arising out of, in connection with, or in relation to the Applications, the Inventions, and the Patents; and
- All documents related to the conception, diligence and reduction to practice of the Inventions and all domestic and international patent filing documents.

Assignors will not execute any writing or do any act conflicting with this Assignment of Patent Rights and, without further compensation, will execute all documents and do such additional acts as Assignee deems necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the respective patent office or governmental agency in each jurisdiction to grant or issue any and all letters patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of Assignee, as Assignee to the entire interest therein.

A copy of this Assignment will be deemed a full legal and formal equivalent of any document that may be required in any country as proof of the right of Assignee to apply for patent or other protection for any Inventions and to claim the benefit of the right of priority thereto. Assignors grant to Assignee the right, power

and authority to insert in this Assignment of Patent Rights any further information or identification that may be necessary or desirable to comply with the applicable rules and procedures for recordation of this Assignment of Patent Rights, or perfecting its benefit, throughout the world.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors or assigns, and anyone properly designated by them and will be binding upon each Assignor, his/her successors or assigns, and anyone properly designated by them.
