**ASSIGNMENT OF APPLICATION**

Attorney Docket No. 0323-0001

Whereas, I/We, the below named inventor(s), hereafter referred to as the applicant, have invented certain new and useful improvements in Tension-Based Non-Pneumatic Tire.

for which an application for a United States Patent was filed on March 27, 2007

Application Number \_\_\_\_\_

for which an application for a United States Patent was executed on \_\_\_\_\_, and

Whereas, Resilient Technologies LLC, herein referred to as the "assignee" whose mailing address is: 100 North 72<sup>nd</sup> Avenue, Wausau, WI 54401, is desirous of acquiring the entire right, title and interest in the same;

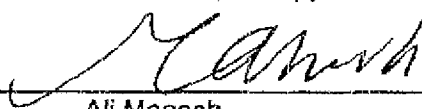

Now, therefore, for good and valuable consideration, the receipt whereof is acknowledged, I/We agree the applicant(s), by these presents do sell, assign, and transfer unto said assignee full and exclusive right to the said invention in the United States and the entire right, title and interest in any and all U.S. and international patent rights, patents and applications for patent relating to Tension-Based Non-Pneumatic Tire and any and all improvement thereon, and the right to sue and collect for past infringements, including the patent(s) and patent application(s) identified above, and further agree to assign, execute and transfer any and all relevant documents and files and to cooperate in filing and prosecution, enforcement and defense of said patent(s), patent application(s) and causes of action.

The assigned rights include all rights to file US and foreign patent applications for the Invention described in the name of each applicant or assignee, as well as any right of priority to any letters patent of the United States or any other country that may be granted for the invention, and any continuations, divisions or extensions thereof. These assigned rights are to be held and enjoyed by the assignee, its successors or assigns, as fully and entirely as the same would have been held and enjoyed by each applicant had this assignment not been made.

I/We, the applicant agrees to execute all papers which the assignee, its successors or assigns deem expedient in connection with the Application and any continuing, divisional, reissue, reexamination or foreign applications concerning the invention, and to cooperate with the assignee, its successors or assigns in every proper way possible to obtain patent(s) based on the Application and any continuing, divisional, reissue, reexamination or foreign applications concerning the invention.

I/We, the applicant hereby authorize and request the Commissioner of Patents and Trademarks to issue said United States Patent to the assignee, Resilient Technologies LLC.

In witness whereof, the applicant has signed below:

Ali Manesh

Executed this 26 day of March, 2007

at Chicago
