WITNESSETH:

WHEREAS, Assignor is the owner of the entire right, title and interest in and to U.S. Patent No. 6,591,979 issued July 15, 2003 ("Assigned Patent");

WHEREAS, Assignee desires to acquire the entire right, title and interest in and to the Assigned Patent;

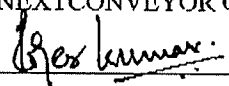

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged:

1. Definitions. For purposes of this Patent Assignment, capitalized terms shall have the meaning set forth in the body of this Patent Assignment.
2. Assignment. Assignor does hereby irrevocably sell, assign, convey and transfer to Assignee all of its right, title and interest in and to the Assigned Patent. The foregoing assignment of the Assigned Patent includes the exclusive rights to (a) apply for and maintain all registrations, issuances, renewals and or extensions thereof, (b) bring actions or otherwise recover for past, present and future infringements thereof, (c) grant licenses or other interests therein, (d) receive all income royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof) and (e) all other rights of any kind whatsoever of Assignor accruing thereunder or pertaining thereto.
3. Appointment. Assignor hereby constitutes and appoints Assignee, and its successors and assigns, as Assignor's true and lawful attorney, with full power of substitution, in each Assignor's name and stead, by, on behalf of and for the benefit of Assignee, and its successors and assigns, to demand and receive any and all of the Assigned Patent transferred hereunder and to give receipts and releases for and in respect of the same, and any part thereof, and from time to time to institute and prosecute, at the expense and for the benefit of Assignee, and its successors and assigns, any and all proceedings at law, in equity or otherwise, which Assignee, and its successors or assigns, may deem proper for the collection or reduction to possession of any of the Assigned Patent transferred hereunder or for the collection and enforcement of any claim or right of any kind hereby sold, assigned, conveyed, transferred and delivered, and to do all acts and things in relation to the Assigned Patent transferred hereunder that Assignee, and its successors and assigns, shall deem desirable.
4. No Third Party Beneficiaries. Nothing in this Patent Assignment, express or implied, is intended to or shall confer upon any other Person or Persons (including, without limitation, any employee or collective bargaining representatives thereof) any rights, benefits or remedies of any nature whatsoever under or by reason of this Patent Assignment.
5. Binding Effect; Assignment. This Patent Assignment shall be binding upon and inure solely to the benefit of the parties hereto and their respective successors (whether by operation of law or otherwise) and assigns.

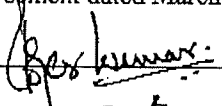

6. Governing Law. This Patent Assignment, including all matters of construction, validity and performance, shall be governed by and construed in accordance with the laws of the State of Florida without regard to the principles of conflicts or choice of laws or any other law that would make the laws of any other jurisdiction other than the State of Florida applicable hereto.
