ASSIGNMENT

ASSIGNMENT made by Bluegrass Environmental Septic Technology, LLC, a limited liability company organized under the laws of the State of Wisconsin, and located and doing business at 1616 East Rockford Lane, Louisville, Kentucky 40216 (hereinafter the ASSIGNOR), to Polylok, Inc., a corporation organized under the laws of the State of Connecticut, and located and doing business at 60 Capital Drive, Wallingford, Connecticut 06492 (hereinafter the ASSIGNEE).

By assignment recorded in the United States Patent Office on Reel 018671, Frame 0480, ASSIGNOR is the owner of all right, title, and interest in United States Application Serial No. 11/542,887, filed October 4, 2006, in the name(s) of Michael J. Hornback, Theophilus B. Terry, and Jerome A. Mehling for improvements in a WASTEWATER FILTER SYSTEM.

For good and valuable consideration provided by ASSIGNEE to ASSIGNOR, the receipt of which is hereby acknowledged by ASSIGNOR:

The ASSIGNOR sells, assigns and transfers to the ASSIGNEE and its successors and assigns the entire right, title and interest in the aforesaid United States Patent Application Serial No. 11/542,887 and the invention described and claimed in it to be held and enjoyed by the ASSIGNEE as fully and entirely as the same would have been held and enjoyed by the ASSIGNOR if this assignment and sale had not been made.

This sale and assignment extends to Application Serial No. 11/542,887 and any related substitute, refile, divisional, or continuation applications filed in the United States and elsewhere; any subsequent patent applications filed in the United States or elsewhere claiming the benefit of priority to this or any of the aforementioned applications; any patents issuing out of any of the aforementioned applications, and any reissues or extensions of such patents; and any other patent applications or patents relating to the invention set forth in the application identified above.

The ASSIGNOR covenants that it has the full right to convey the entire right, title and interest in the invention to the ASSIGNEE and that it has not executed and will not execute any agreement in conflict with this ASSIGNMENT.

The ASSIGNOR covenants that it will at any time and upon request execute and deliver any and all papers that may be necessary or desirable to perfect the title in the

invention, or the title in any application regarding the invention or in Letters Patent that may be granted for the invention. If the ASSIGNEE or its successors or assigns desire to make substitute, refile, divisional, or continuation applications for the invention, or to secure a reissue or extension of a Letters Patent for the invention, or to file a disclaimer relating to the invention, or to make an application for a corresponding patent in any foreign country, the ASSIGNOR covenants that it will at any time and upon request sign all papers, make all rightful oaths, and do all lawful acts necessary for these purposes, but at the expense of the ASSIGNEE.

The ASSIGNOR acknowledges that its entire beneficial interest in the invention to which the above application relates is irrevocably vested in the ASSIGNEE, including the right to apply for protection in all countries abroad and the right to claim priority under any International Conventions for such applications, and assent to the making of any such applications and any substitutes, refiles, divisionals, or continuations resulting from any such applications, with or without priority claims.

The ASSIGNOR covenants that it will at all times communicate to the ASSIGNEE, its successors, assigns, and legal representatives, all facts relating to the invention and any applications or Letters Patent relating to the invention known to them, and testify as to these facts in interferences or other litigation when requested to do so, but at the expense of the ASSIGNEE.

Executed and delivered this 12 day of April, 2007.

Bluegrass Environmental Septic Technology, LLC
