ASSIGNMENT

WHEREAS, WE, NORRIS E. LEWIS, of 805 Tower Road, Christiansburg, Virginia 24073 and BARRY K. WITHERSPOON, of 514 College View Drive, Blacksburg, Virginia 24060, have invented certain new and useful improvements in a FLUID-DISPENSING RESERVOIR FOR LARGE-DIAMETER SLIP RINGS, for which we have made application for Letters Patent of the United States and which application was filed on August 4, 2006 and has been assigned U.S. Patent Application Serial No. 11/499,289; and

WHEREAS, MOOG INC., a New York corporation, of Jamison Road, East Aurora, New York 14052, is desirous of acquiring an interest in the said invention and application, and in any Letters Patent that may be granted therefor:

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration to us in hand paid, the receipt whereof is hereby acknowledged, we have assigned, sold and set over, and do hereby assign, sell and set over, unto the said MOOG INC., the full and exclusive right, title and interest in and to the said invention and application for the United States and all foreign countries, as fully set forth and described in the specification filed by us on the August 4, 2006, preparatory to obtaining Letters Patent therefor; said invention, application and any Letters Patent to be held and enjoyed by the said MOOG INC.; for its own use and behoof, and for its successors and assigns, to the full end of the term for which any Letters Patent may be granted, as fully and entirely as the same would have been held by us had this assignment not been made.

AND WE do hereby authorize and request the Commissioner of Patents and Trademarks to issue the said Letters Patent to the said MOOG INC., as the assignee of the entire right, title and interest thereto.

AND WE agree to sign and properly execute such necessary and lawful papers for filing continuations and divisions of said application for patent, for interference or proceedings, and for obtaining any reissue or reissues of any Letters Patent that may be granted for our aforesaid invention, as the assignee thereof shall hereafter require and prepare at its own expense.

AND WE do further understand that in executing this document, we are transferring our entire interest in and to said invention and application(s) to the assignee

hereof, and that the attorney(s) that we have appointed in said application(s) also represent the assignee and any co-inventor(s) identified in said application(s). We consent to such multiple representation for the purpose of prosecuting said application(s), and do hereby authorize said attorney(s) to take all future instructions from the assignee. We are unaware of any potential interest that we may have that differs from, or is adverse to, that of the assignee with respect to the prosecution of this application(s), and we further acknowledge that, prior to executing this document, we did not seek or obtain any legal advice from said attorney(s) with respect to this assignment, and that we had been informed of our right to seek independent counsel of our own choosing and at our own personal expense.

IN TESTIMONY WHEREOF, we have hereunto set our hands and affixed our seals this 26th day of March, 2007.
