## ASSIGNMENT DOCUMENT

THIS ASSIGNMENT is made and entered into by and between Ji Zhang (ASSIGNOR) and QuantumCor, Inc., a California corporation ("ASSIGNEE").

WHEREAS, ASSIGNOR represents and warrants that ASSIGNOR holds good and marketable title to the Patents and Patent Rights identified herein and that such title is free and clear of restrictions on or conditions to transfer or assignment, and free and clear of all liens, pledges, charges or encumbrances.

WHEREAS, ASSIGNOR is desirous of transferring the entire right, title, and interest in the Patents and Patent Rights identified herein and ASSIGNEE is desirous of acquiring the entire right, title, and interest in said Patents and Patent Rights.

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged:

### 1. GRANT OF RIGHTS.

1.1 ASSIGNOR hereby sells, assigns, and transfers to ASSIGNEE its successors, assigns and legal representatives, the full and exclusive right, title and interest, including all causes of action and the right to sue for past infringement and collect damages therefore, for the United States and all foreign countries, in and to the following subject matter:

United States Patent No. 6,569,163 entitled "Wireless Electrosurgical Adapter Unit and Methods Thereof" (referred to hereinafter as the "Patents"); all original, divisional, continuation, continuation-in-part, improvement, substitute, renewal, reissue, and all other applications for Letters Patent which have been or shall be filed in the United States and all foreign countries on any inventions contained in said Patents or improvements based on said Patents; and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on said improvements or Patents; and in and to all rights of priority resulting from the filing of said Patents.

### 2. OBLIGATIONS OF THE PARTIES.

2.1 ASSIGNOR agrees that ASSIGNEE may apply for and receive Letters Patent for said Patents in its own name and hereby authorizes and requests the Director of the U.S. Patent and Trademark Office to issue all United States Patents granted or derived from said Applications to ASSIGNEES; and that, when requested, without charge to (but at the expense of ASSIGNEE) ASSIGNOR will carry out in good faith the intent and purpose of this Assignment by: (a) executing all divisional, continuing, improvement, substitute, renewal, reissue, and all other patent applications on any and all of said Patents; (b) executing all rightful oaths, assignments, powers of attorney and other

papers; (c) communicating to ASSIGNEE, its successors, assigns, and representatives, all known facts relating to said Patents and the history thereof; and (d) generally do everything possible which ASSIGNEE, its successors, assigns or representatives shall consider desirable for aiding in securing and maintaining proper patent protection for said Patents or Patent Rights and for vesting title to said Patents and all Applications for patents, in ASSIGNEE. In the event that ASSIGNEE is unable, after reasonable effort, to secure ASSIGNOR'S signature on any documents relating to protection or maintenance of the Patents or Patent Rights, whether because of ASSIGNOR'S physical or mental incapacity or for any other reason whatsoever, ASSIGNOR hereby irrevocably designates and appoints ASSIGNEE and its duly authorized officers and agents as his/her agent and attorney-in-fact, to act for and on his/her behalf to execute and file any such application or applications and to do all other lawfully permitted acts to further the prosecution, issuance, and maintenance of the Patents or Patent Rights with the same legal force and effect as if personally executed by ASSIGNOR.

ACCEPTED AND AGREED TO:

Executed this 6<sup>th</sup> day of June, 2006 at Burnaby, B.C.

  
 \_\_\_\_\_  
 ASSIGNOR: Ji Zhang

Executed this \_\_\_\_\_ day of \_\_\_\_\_, 2006 at \_\_\_\_\_.
