WHEREAS, the Assignors believe themselves to be the original, first and joint inventors and authors of the invention and design;

WHEREAS, the Assignees desires to acquire by formal, recordable assignment the entire worldwide right, title and interest in and to said invention and design, said applications, and any utility patent, design patent, industrial design, design right, utility model or petty patent that may be granted for said invention and design in the United States, Canada, or anywhere else throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignors hereby sell, assign and transfer to the Assignees, the entire worldwide right, title and interest in and to said invention and design, said applications, and any utility patent, design patent, industrial design, design right, utility model or petty patent that may be granted for said invention and design in the United States, Canada, or anywhere else throughout the world, including the right to file foreign applications directly in the name of the Assignees and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, the Assignors agree that, upon request and without further compensation, but at no expense to the Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any utility patent, design patent, industrial design, design right, utility model or petty patent as may issue anywhere in the world for said invention and design, and for perfecting, recording or maintaining the title of the Assignees, their successors and assigns, to said invention and design, said application, and any utility patent, design patent, industrial design, design right, utility model or petty patent granted for said invention and design in the United States, Canada, or anywhere in the world.

The Assignors represent and warrant that they have not granted and will not grant to any other any rights inconsistent with the rights granted herein.

The Assignors authorize and request the Director or Commissioner of Patents and Trademarks, as the case may be, of the United States, Canada and of all foreign countries to issue any utility patent, design patent, industrial design, design right, utility model, or petty patent granted for said invention and design, whether on said applications or on any subsequently filed division, continuation, continuation-in-part or reissue application, to the Assignees, their successors and assigns, as the assignees of the entire interest in said invention and design.
