INVENTION/PATENT ASSIGNMENT

WHEREAS, Michael M. Anthony ("Assignor") has invented and participated in the development of certain new, non-obvious and useful improvements in *MECHANICAL ACTUATOR FOR AEROSOL CAN* ("Invention") disclosed in a United States Patent Application to be filed with the United States Patent and Trademark Office;

WHEREAS, George Gervais, a Florida resident, with an address of 3300 North State Road 7, Lot A6, Hollywood, Florida ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said Invention and Application, and in and to any and all utility and design patents that may be granted therefor in the United States and in any and all foreign countries;

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) to Assignor in hand paid, and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby sells, assigns and transfers, to said Assignee the full and exclusive right to the said Invention and Application including any and all rights to past, present, and future damages relating to infringements thereof, if any, in the United States and its territorial possessions and in all foreign countries and the entire right, title, and interest in and to any and all utility and design patents which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to all divisions, reissues, continuations and extensions thereof.

Assignor hereby authorizes and requests the United States Patent and Trademark Office in the United States and any and all foreign countries to issue any and all patents, when granted, to said Assignee as the assignee of the entire right, title, and interest in and to the same, for the sole use and enjoyment of said Assignee, its successors and assigns.

Further, Assignors agree they will communicate to said Assignee or its representatives, any facts known to them respecting said Invention, and testify in any legal proceedings, sign all lawful papers, execute all divisions, continuations, substitutions, renewal and reissue Application, execute all necessary assignment papers to cause any and all of said utility patent to be issued to said Assignee, make all rightful oaths, and generally do everything necessary or desirable to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said Invention in the United States and in and all foreign countries.

ASSIGNOR:
