ASSIGNMENT OF PATENT APPLICATION

WHEREAS, Daniel S. Shugar of 150 Tehama Court, San Bruno, California 94066; John Peurach of 63 Potomac Street, San Francisco, California 94117; and Matthew P. Campbell of 3140 Eton Avenue, Berkeley, California 94705, hereinafter referred to as "Assignors," are the inventors of the invention described and set forth in the below-identified application for United States Letters Patent:

Title of Invention: **SOLAR COLLECTOR ARRANGEMENT WITH
REFLECTING SURFACE**

and have filed a provisional application for a United States patent disclosing and identifying the above invention on 21 April 2006 as Application No. 60/5745,324, and have filed a non-provisional application for a United States patent disclosing and identifying the above invention on **April 20, 2007** as Application No.: **11/738,079**; and

WHEREAS, PowerLight Corporation, a corporation of the state of California, located at 2954 San Pablo Avenue, Berkeley, CA, 94710, hereinafter referred to as "ASSIGNEE," is desirous of acquiring an interest in the invention and application and in any U.S. Letters Patent and Registrations which may be granted on the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignors, Assignors have assigned, and by these presents do assign to Assignee all right, title and interest in and to the invention and application and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignors had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignors further agree that they will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
