PATENT
REEL: 019331 FRAME: 0573

ASSIGNMENT OF INVENTION

WHEREAS, We, Barnes Group Inc. residing at 123 Main Street, Bristol CT 06010 (hereinafter "Assignor"), has invented certain new and useful improvements for a spring motor, and did obtain the Patents set forth on Exhibit I hereto (hereinafter the "Patents"); and whereas we are now the owner(s) of the entire right, title and interest in and to the Patents.

AND WHEREAS, Newell Window Furnishings, Inc., a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, and having a place of business at 4110 Premier Drive, High Point, North Carolina, (hereinafter "Assignee") desires to acquire all right, title and interest in and to said invention and Patents within the United States and its territorial possessions and all foreign countries, and any United States or foreign patents that may be granted for said invention.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged by Assignor, and as set forth in the Equipment and Intellectual Property Purchase Agreement, dated September 12, 2006 among the Assignee and Assignor and certain of their respective affiliates, and with the intention of being legally bound hereby, Assignor does hereby sell, assign and transfer to said Assignee the entire right, title and interest in and to my invention and to the Patents within the United States of America and its territorial possessions and all foreign countries, and to any patents of the United States and all foreign countries that may be granted for said invention, including all patents based on divisions, continuations, continuations-in-part, reissues or reexaminations applications for said invention and any substitutes, patents of addition, renewals and extensions thereof, and the right to apply for patents in foreign countries with full benefit of such priorities as may now or hereafter be granted to us by local laws or by treaty, including any international convention for the protection of industrial property, together with the right to extend the protection of said Patents to the various territorial possessions now owned or which may be hereafter acquired by the United States of America, all said rights to be held and enjoyed by the Assignee for its use and benefit and for the use and benefit of its successors or assigns, to the full end of the term for which said Patents are or may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

Assignor further covenants with the Assignee that Assignor has full and unencumbered title to the invention and Patents herein assigned, which title Assignor warrants unto the Assignee, and Assignor further agrees that, when requested, Assignor will, without demanding any further consideration therefore but at the expense of Assignee, do all lawful and just acts, including the execution and acknowledgement of instruments, that may be or become necessary for obtaining, sustaining or reissuing the Patents or any other United States or foreign Letters patent for the invention, and for maintaining and perfecting the Assignee's right to the invention and Patents particularly in cases of interference and litigation.

IN WITNESS WHEREOF, the Assignors have executed this Assignment under seal.

Thomas Fodell Her Fodell 4/30/2007
