Assignment of Invention and Patent Application

Gary L. Kincaid ("Assignor") is inventor of a design for a plant marker device ("Invention") which is shown in U.S. Patent Application # 29/246,627 (the "Application"). Kincaid Gardens, Inc. ("Assignee"), a Missouri subchapter S corporation having a mailing address of 11000 County Road 366, Savannah, MO 64485, desires to acquire all rights in and to the Application as well as to any patents that may be issued for the Invention.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the Invention and the Application to Assignee for the entire term of the issued patent and any extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications filed claiming the benefit of the Application and any priority rights resulting from the Application.

Assignor authorizes the United States Patent and Trademark Office to issue any patent resulting from the Application to Assignee according to the percentage interest indicated in this assignment. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.
