PATENT
REEL: 019457 FRAME: 0306

ATTORNEY REF: 194066-6

ACKNOWLEDGEMENT by an Employee of the Right to apply for a Patent and AN ASSIGNMENT made on 6 JUNE 2007 BETWEEN

DAVID RAMSDEN of British nationality, 14 Bridlington Avenue, Shirley, Southampton, Hampshire, SO15 5HN, United Kingdom (hereinafter referred to as "Inventor");

MATTHEW DALLIMORE of British nationality, 37 Cheviot Drive, Dibden, Hampshire, SO45 5TZ, United Kingdom (hereinafter referred to as "Inventor"); and

SYMETRICA LIMITED, a legal body organized under the laws of England having a place of business at 2 Venture Road, Chilworth Science Park, Southampton, Hampshire, SO16 7NP, United Kingdom (hereinafter referred to as "Employer").

WHEREAS :-

(A) Each Inventor claims jointly with the other Inventor(s) to have made the Invention described in International patent application number PCT/2005/001830 filed on 13 May 2005, from which US patent application number 11/597,535 filed on 22 November 2006 and titled "GAMMA RAY SPECTROMETERS" derives (hereinafter referred to as "the Invention");

(B) The Invention has been made by the Inventors during a period of their employment with the Employer and in the course of their normal duties with the Employer and by virtue of the terms of their employment with the Employer, the Invention is to be taken as between the Employer and the Inventors to belong to the Employer.

NOW THIS AGREEMENT WITNESSES as follows:-

1. Each Inventor HEREBY ACKNOWLEDGES that the Invention and all rights therein including the right to apply for a patent or patents relating to the Invention belongs to the Employer, and pursuant thereto HEREBY ASSIGNS TO AND CONFIRMS the vesting in the Employer of:

(a) the whole of the property in the Invention throughout the world and any protection obtained at any time therefor and all rights title and interest which the Inventor may have or have been entitled to therein including all rights to bring proceedings for infringement thereof together with the full and exclusive benefit thereof; and

(b) the right to apply for and obtain or to enable others to apply for and obtain a patent or patents or any other form of protection in respect of the Invention both in the United States of America and throughout the world.

2. Each Inventor hereby undertakes to the Employer that he will at the expense of the Employer execute all documents and do all such acts and things as the Employer may in its absolute discretion consider necessary or desirable to enable patents or any form of protection to be issued in respect of the Invention in any part or parts of the world and to vest the same in the name of the Employer or its nominee free from all encumbrances and to enable or to assist the Employer or its nominee to defend oppositions to grant thereof, to maintain the same when granted and to present and prosecute for the infringement thereof.

3. Each Inventor hereby warrants to the Employer:

(a) that he has not assigned or agreed to assign to any person firm company or legal body or otherwise encumbered the Invention or any other part of the rights therein and thereto;

(b) that he has not disclosed and will not disclose the Invention to any person firm company or legal body other than the Employer except as directed by the Employer;

(c) that he will give to the Employer all information in his possession or in his power relating to the Invention and the method of employing or using the same as the Employer shall require;

(d) that he knows of no reason why a valid patent or valid patents relating to the Invention should not be granted either to himself or to his successors in title.

IN WITNESS thereof the parties have duly executed this document the day and year first above written

SIGNED by the Inventor:
