ASSIGNMENT OF INVENTION AND PATENT RIGHTS

Inventor(s): Dale M. Walker, Adriana Elisa Kajon and Vernon E. Walker

Serial No. 11/736,471

Filing Date: April 17, 2007

For valuable consideration received or to be received, and hereby acknowledged, Dale M. Walker of 11628 Woodmar Lane, N.E., Albuquerque, New Mexico 87111, a citizen of the United States of America; Adriana Elisa Kajon of 1611 Ridgecrest Drive, S.E., Albuquerque, New Mexico 87108, a citizen of Argentina; and Vernon E. Walker of 11628 Woodmar Lane, N.E., Albuquerque, New Mexico 87111, a citizen of the United States of America; (hereinafter referred to as "Inventors"), hereby sell, assign and transfer unto LOVELACE RESPIRATORY RESEARCH INSTITUTE of 2425 Ridgecrest, S.E., Albuquerque, New Mexico 87108, its successors and assigns (hereinafter referred to as "LRRRI"), the entire interest for the United States of America and all foreign countries, including all rights of priority under the international conventions and treaties, in and to a certain Invention or improvement known as *Broad Spectrum Antiviral and Methods of Use*, and described in an application filed in the United States Patent and Trademark Office on April 17, 2007, as Attorney Docket No. 41543-0503UT and given U.S. Patent Application Serial No. 11/736,471, which claims priority to U.S. Provisional Patent Application Serial No. 60/792,738 filed April 17, 2006, (hereinafter referred to as "Invention") and in all Letters Patent of the United States and all foreign countries which may or shall be granted on said Invention, or any parts thereof, or on said application, or on any provisional, utility, divisional, continuing, reissue, reexamination or other applications based in whole or in part thereon. As set forth in Inventors' employment agreements and LRRRI's employment policies and procedures manual, LRRRI and the Inventors shall share 70%-30% net royalty income and licensing fees that LRRRI obtains from the exploitation of an Invention through written licensing agreements, regardless of whether such Invention is patented or otherwise protected. Net royalty income and licensing fees are defined as all costs accrued in development, protection, ownership, and licensing of

the Invention, including research and development costs, patent or copyright fees, and attorney fees in negotiating a license agreement.

Co-Inventors shall agree on a division of income as to the 30% share of net royalty income and licensing fees at the time the Invention is disclosed. If co-Inventors do not agree, the President/CEO of LRRRI will determine how the division should be made; this decision is binding and non-appealable.

And Inventors agree hereafter to execute all applications, amended specifications, deeds or other instruments, and to do all acts necessary or proper in LRRRI's sole discretion to secure to LRRRI the grant of Letters Patent in the United States and/or in other countries as LRRRI may determine in its sole discretion, with specifications and claims in such form as shall be approved by LRRRI's counsel, and to vest and confirm in LRRRI the legal and equitable title and full use and benefit of all such patents.

Inventors further agree with LRRRI that this Assignment covers all processes, specifications, procedures, techniques and other knowledge and information now or hereafter known to Inventors which are not in the public domain and which relate to the above-mentioned Invention or improvement, its manufacture, uses or embodiments, or other matters (the "Related Know-How"). Inventors agree to disclose or provide all Related Know-How to LRRRI when discovered or upon request.

Inventors further covenant that LRRRI will, upon its request, be provided promptly with all pertinent facts and documents relating to said application, said Invention and said Letters Patent and legal equivalents in foreign countries as may be known and accessible to Inventors and will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to LRRRI or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said Invention and said Letters Patent and said equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

Inventors' rights in the above-mentioned Invention or improvement and Related Know-How and any patent application(s) and Letters Patent thereon have not been previously assigned,

mortgaged or otherwise encumbered, and Inventors have full right, power and authority to assign all such rights to LRRRI hereunder.

As used herein, the terms "Inventors" and "LRRRI" shall include such parties and their heirs, administrators, estates, successors and assigns of every kind.

Inventors hereby authorize and request the Commissioner of Patents and Trademarks of the United States, and all foreign countries' equivalent officials, to issue such Letters Patent as shall be granted on said application or applications based thereon to LRRRI.
