2. Sell, assign and transfer to Assignee my entire right, title and interest in Developments (as defined below) and any intellectual property rights (including, but not limited to, patent and copyright) therein or obtained therefrom (and without regard to whether such Developments relate to the inventions or designs referenced in Paragraph 1 above). For the purposes of this assignment, "Developments" mean any inventions, designs, developments, improvements, processes, software programs, works of authorship, or techniques, whether or not patentable or registrable under copyright or similar statutes that I conceived, created, discovered, invented or reduced to practice during my employment with Assignee, its affiliates or any of their respective predecessors (collectively, "L-3") that (a) related to an actual or contemplated business of L-3 or any of the products or services being developed, manufactured or sold by L-3, or (b) resulted from tasks assigned me by L-3 or arose out of activities within the scope of my employment with L-3, or (c) resulted from the use of premises or property or proprietary information owned, leased or contracted for by L-3.
3. Agree that said Assignee may apply for and receive Letters Patent and utility model and industrial design registrations for the inventions, designs and Developments referenced in Paragraph 1 or 2 above (collectively, the "Assigned IP") in its own name; and when requested, without charge to but at the expense of said Assignee, agree to take all actions as are necessary or appropriate to carry out in good faith the intent and purpose of this assignment, including without limitation by executing all non-provisional, divisional, continuing, substitute, renewal, reissue, and all other patent, utility model and industrial design applications on any and all Assigned IP, by executing all rightful oaths, assignments, powers of attorney and other papers, by communicating to said Assignee all facts known to me relating to any and all Assigned IP and the history thereof, and generally by doing everything reasonably possible which said Assignee shall consider desirable for aiding in securing and maintaining proper protection for any and all

Assigned IP and for vesting title to any and all Assigned IP and all applications for patents and all patents thereon, in said Assignee worldwide;

4. Request the Honorable Director of the United States Patent and Trademark Office to issue all Letters Patent referenced in this Agreement to said Assignee;
