## ASSIGNMENT

Pursuant to our obligation to Bosch Security Systems Inc. (hereinafter referred to as "Assignee"),  
a New York corporation having its principle place of business at:

130 Perinton Parkway  
Fairport, NY 14450

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged, we:

William S. DiPoala  
631 County Line Rd.  
Fairport, NY 14450

David Anderson  
14 Franklin Street, Apt. 401  
Rochester, NY 14604

Jeffrey Swan  
22 Orange Tree Circle  
Rochester, NY 14624

confirm our obligation to and hereby sell, assign and convey, unto Assignee, its successors and  
assigns, our entire right, title and interest -

(1) in and to an invention entitled "HIGH SECURITY OPTICAL DOOR  
CONTACT" for which we have executed a United States patent application on even date  
herewith (Atty. File No. R314643);

(2) in and to said United States patent application, in and to all other patent  
applications (including divisional, continuation, continuation-in-part, §111(b) provisional,  
§111(a), and reissue applications) based upon said invention, and in and to the patent or patents  
to be granted thereon, including reissues thereof, if any, to the full end of the term or terms for  
which said patent or patents may be granted;

(3) in and to all patent applications on said invention now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the United States patent application and agree that any patent applications of any foreign countries which may be filed shall be filed in the name of our Assignee with a claim to priority based on said United States application.

And we hereby agree that we will, upon demand of Assignee, its successors or assigns, and without further consideration to us, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by us.

The foregoing notwithstanding, and in recognition of the fact that Assignee is part of the Bosch group of companies, we hereby assign to Robert Bosch GmbH, a German corporation having a mailing address at Postfach 30 02 20, D-70442 Stuttgart, GERMANY, the limited right to be named as assignee or applicant at the time of publication and at the time of issue on any applications or patents granted as referred to in foregoing paragraphs (2) and (3). If the right applicable to any such patent application allows an assignee to be the applicant of the patent application, Robert Bosch GmbH shall have the right to be identified as applicant of the patent application and the right to claim priority of said United States application. This limited right granted to Robert Bosch GmbH with respect to any patent application or granted patent shall expire upon the first-occurring of (i) assignment to a third party of any of the above-mentioned rights of Assignee, or (ii) with respect to any particular patent, issue of such patent, and shall be

subsequently part of the assignable rights of Assignee. All other rights to said invention, said applications and said patents, U.S. or foreign, including the right under any of said patents to manufacture, use, sell or offer for sale the invention covered by said patents, or to license or permit use of said invention, remain with Assignee and shall be assignable by Assignee without the consent of Robert Bosch GmbH.

And the Commissioner of Patents and Trademarks of the United States is hereby authorized and requested to issue said United States patent or patents to Assignee.
