## ASSIGNMENT OF PATENT RIGHTS

The Assignors have invented one or more inventions (the "Invention(s)") described in the patent application listed on attached Schedule A, filed in the United States Patent and Trademark Office, and other governmental offices. Assignee desires to acquire the entire right, title and interest in and to the assets and rights transferred pursuant to this Assignment of Patent Rights, made effective as of September 28, 2004 (this "Assignment").

Now, therefore, for valuable consideration, the receipt and sufficiency of which Assignors acknowledge, David L. Huelsman, Sharon E. Love, and Douglas M. Mair ("Assignors") hereby sell, assign, and transfer to Resolution EBS, Inc., a Delaware corporation ("Assignee"), the full extent of his right, title, and interest in and to any and all of the following (collectively, the "Rights"):

- The Invention(s) and all rights with respect to the Invention(s);
- All United States patents or other governmental grants or issuances that may be granted with respect to the Invention(s) (the "Patents(s)");
- The patent application listed on Schedule A and all divisionals, continuations, and continuations-in-part or other applications claiming priority rights from the application listed on Schedule A (the "Applications(s)");
- All reissues, reexaminations, extensions or registrations of any and all of the Application(s) or the Patent(s);
- All non-United States patents, patent applications, and counterparts relating to the Invention(s), the Application(s), and the Patent(s) including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
- The right to claim priority rights deriving from the Application(s);
- All causes of action and remedies related to the Application(s), the Invention(s), and the Patent(s) (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Application(s), the Invention(s), and the Patent(s));
- All rights to collect royalties and other payments under or on account of any of the Application(s), the Invention(s), and the Patent(s); and
- Any and all other rights and interests arising out of, in connection with, or in relation to the Application(s), the Invention(s), and the Patent(s).

Assignors request the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

Assignor hereby agrees to execute any papers requested by Assignee, its successors, assigns and legal representatives, deemed essential to Assignee's full protection and title in and to the Invention hereby transferred.

Assignors furthermore agree upon request of said Assignee, and without further remuneration, to execute any and all papers desired by said Assignee for the filing and granting of foreign applications and the perfecting of title thereto in said Assignee.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives and assigns and will be binding upon Assignors, their successors, legal representatives and assigns.
