WHEREAS, Tower Automotive Operations USA I, LLC, a Delaware limited liability company (herein referred to as the “**Lien Grantor**”) owns, or in the case of licenses is a party to, the Patent Collateral (as defined below);

WHEREAS, Tower Automotive Holdings USA, LLC (the “**Borrower**”), Tower Automotive, LLC, Tower Automotive Holdings I, LLC, Tower Automotive Holdings II(a), LLC, Tower Automotive Holdings II(b), LLC, the Subsidiary Guarantors and Lenders party thereto, and JPMorgan Chase Bank, N.A., as Administrative Agent, are parties to a Revolving Credit and Guaranty Agreement dated as of July 31, 2007 (as amended from time to time, the “**Credit Agreement**”); and

WHEREAS, pursuant to (i) a First Lien Revolving Credit Facility Security Agreement dated as of July 31, 2007 (as amended and/or supplemented from time to time, the “**Security Agreement**”) among the Borrower, the Guarantors party thereto and JPMorgan Chase Bank, N.A., as agent for the Secured Parties referred to therein (in such capacity, together with its successors in such capacity, the “**Grantee**”), and (ii) certain other Loan Documents (as defined in the Credit Agreement) (including this Copyright Security Agreement), the Lien Grantor has guaranteed certain obligations of the Borrower and secured such guarantee (the “**Lien Grantor’s Transaction Guarantee**”) by granting to the Grantee for the benefit of such Secured Parties a continuing security interest in personal property of the Lien Grantor, including all right, title and interest of the Lien Grantor in, to and under the Patent Collateral (as defined below);

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Lien Grantor grants to the Grantee, to secure the Lien Grantor’s Transaction Guarantee, a continuing security interest in all of the Lien Grantor’s right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the “**Patent Collateral**”), whether now owned or existing or hereafter acquired or arising:

(i) each Patent (as defined in the Security Agreement) owned by the Lien Grantor, including, without limitation, each Patent referred to in Schedule 1 hereto;

(ii) each Patent License (as defined in the Security Agreement) to which the Lien Grantor is a party, including, without limitation, each Patent License identified in Schedule 1 hereto; and

(iii) all proceeds of and revenues from the foregoing, including, without limitation, all proceeds of and revenues from any claim by the Lien Grantor against third parties for past, present or future infringement of any Patent owned by the Lien Grantor (including, without limitation, any Patent identified in Schedule 1 hereto) and all rights and benefits of the Lien Grantor under any Patent License (including, without limitation, any Patent License identified in Schedule 1 hereto).

The Lien Grantor irrevocably constitutes and appoints the Grantee and any officer or agent thereof, with full power of substitution, as its true and lawful attorney-in-fact with full power and authority in the name of the Lien Grantor or in the Grantee's name, from time to time, in the Grantee's discretion, so long as any Event of Default shall have occurred and be continuing, to take with respect to the Patent Collateral any and all appropriate action which the Lien Grantor might take with respect to the Patent Collateral and to execute any and all documents and instruments which may be necessary or desirable to carry out the terms of this Patent Security Agreement and to accomplish the purposes hereof.

Except to the extent expressly permitted in the Security Agreement or the Credit Agreement, the Lien Grantor agrees not to sell, license, exchange, assign or otherwise transfer or dispose of, or grant any rights with respect to, or mortgage or otherwise encumber, any of the Patent Collateral.

The foregoing security interest is granted in conjunction with the security interests granted by the Lien Grantor to the Grantee pursuant to the Security Agreement. The Lien Grantor acknowledges and affirms that the rights and remedies of the Grantee with respect to the security interest in the Patent Collateral granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.
