ASSIGNMENT

WHEREAS Martin GmbH, für Umwelt- und Energietechnik
at Leopoldstrasse 248, D-80807 Munich, Germany [hereinafter
referred to as Assignor], owns an invention entitled:

METHOD FOR SUPPLYING COMBUSTION GAS IN GRATE-BASED
INCINERATION SYSTEMS

AD July 24, 2007 JM August 8, 2007
for which an application for German Letters Patent was filed as German Patent Application No. 10
2006 043 807.8, filed on September 12, 2006 [hereinafter referred to as Application].

13
AND WHEREAS, Covanta Energy Corporation, 40 Lane Road, Fairfield, NJ 07004
[hereinafter referred to as Assignee], is desirous of securing a joint right, title and interest in and to
this invention in North America, including the United States, its territories and possessions, Mexico,
Canada, Bermuda, Cuba and Caribbean, except islands or territories under the dominion of France
(Martinique and Guadeloupe) or Great Britain (Cayman Islands, Turks and Caicos Islands and
British Virgin Islands) (hereinafter collectively "the Territory") and in and to all applications and all
Letters Patents to be issued, based upon or claiming priority from the Application in the Territory;

NOW, THEREFORE, be it known that, for and in consideration of good and valuable
consideration, the receipt of which from Assignee is hereby acknowledged, Assignor has sold,
assigned, transferred, and set over, and does hereby sell, assign, transfer, and set over unto the
Assignee, its lawful successors and assigns a joint right, title and interest in and to this invention in
the Territory and all applications and all divisions and continuations thereof based upon or claiming
priority from the Application in the Territory, and all Letters Patents which may be granted thereon
in the Territory, and all reissues thereof, and all rights to claim priority in the Territory on the basis
of the Application, and all applications for Letters patent which may hereafter be filed for this
invention in the Territory, and all extensions, renewals and reissues thereof, and all rights to claim
priority on the basis of such applications, and all rights to sue and collect damages from past,
present, and future infringement in the Territory; and Assignor hereby authorizes and requests the
Commissioner of Patents and Trademarks of the United States and the directors of all patent offices
in the Territory, to issue all Letters Patent for this invention in the Territory to, jointly, Assignee, its
successors and assigns, in accordance with the terms of this Assignment.

NOW, THEREFORE, be it known that, the Assignor and Assignee [hereinafter referred to
individually as the Party or together as the Parties] shall jointly own all right, title and interest in
and to the invention in the Territory. Each of the Parties shall have the right to exploit and
commercialize the invention in the Territory without any obligation to obtain the consent of the other
Party and without any obligation to provide an accounting or any payment to the other Party.
Without limiting the foregoing, the Parties agree that each Party will grant the other the necessary
licenses and rights in the invention, as reasonably requested by the other Party in order for each
Party to exploit and commercialize the invention as set forth in this Assignment and any ancillary
agreements including the Amended and Restated Cooperation Agreement dated February 9, 2004
between Martin GmbH für Umwelt und Energietechnik and Covanta Energy Group, Inc.

AND, ASSIGNOR HEREBY covenants that Assignor has the full right to convey the joint
interest assigned by this Assignment, and Assignor has not executed and will not execute any
agreement in conflict with this Assignment;

AND ASSIGNOR HEREBY further covenants and agrees that Assignor and its employees
will, without further consideration, communicate with Assignee, its successors and assigns, any facts
known to Assignor and its employees respecting this invention, and testify in any legal proceeding,
sign all lawful papers when called upon to do so, execute and deliver any and all papers that may be
necessary or desirable to perfect the joint title to this invention in said Assignee, its successors or
assigns, execute all divisional, continuation, and reissue applications, make all rightful oaths and
generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce
