JOINT TO CORPORATE ASSIGNMENT OF PATENT RIGHTS
[NUNC PRO TUNC]

WHEREAS, the undersigned Inventors:

- (1) John Glissman, a resident of Caloocan City, Metro Manila, Philippines; and
- (2) Arthur L. Cohen, a resident of Cupertino, California

have invented a circuit and method for providing an auto-off capability for a wireless transmitter, and have executed declarations or oaths for an application for a United States Utility Patent, disclosing and identifying the invention, said invention having been conceived and/or reduced to practice while under an employment and/or independent contractor's agreement obliging the undersigned to assign inventions to Assignee herein, and said application identified as follows.

Title: CIRCUIT AND METHOD FOR PROVIDING AN
AUTO-OFF CAPABILITY FOR A WIRELESS TRANSMITTER
U.S. Utility Patent Application Serial No. 11/680,936
Priority Date: 01/09/2003
Filing Date: 03/01/2007; and

WHEREAS, AERIELLE, INC. (hereinafter termed "Assignee"), a corporation of the State of California, having a place of business at 625 Ellis Street, Suite 206, Mountain View, California 94043 USA, wishes to acquire the entire right, title and interest in and to said applications and the inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered jointly or severally by said Inventors (all collectively hereinafter termed "said inventions"), and in and to any all patents, certificates of invention and other forms of protection thereon (hereinafter termed "patents") applied for or granted in the United States and/or other countries.

NOW THEREFORE, for good and valuable consideration acknowledged by each of said Inventors to have been received in full from Assignee:

1. Said Inventors do hereby sell, assign, transfer and convey to said assignee, *nunc pro tunc*, effective January 9, 2003, the entire right, title and interest (a) in and to said applications and said inventions; (b) in and to all rights to apply in any or all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said inventions in the United States or any other country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all of said patents.
2. Said Inventors hereby jointly and severally covenant and agree to cooperate with said

Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by said Inventors shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specification, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement action and court actions; provided, however, that the expense incurred by said Inventors in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this Assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventors, their respective heirs, legal representatives and assigns.
4. Said Inventors hereby jointly and severally warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Inventors have executed this instrument on the date of acknowledgment as given below and delivered this instrument to said Assignee:

Dated: Aug 25, 2007
