ASSIGNMENT OF INVENTION AND PATENTS THEREON

For valuable consideration, I, **Mohamed Bouhaj**, hereby assign to **Airbus Deutschland GmbH**, a German corporation having a place of business at **Kreetslag 10, 21129 Hamburg, Germany**, and its successors and assigns (collectively hereinafter called "the Assignee"), my entire right, title and interest throughout the world in the inventions and improvements which are the subject of an application for United States Patent entitled "**Diaphragm For Throttling A Volume Flow In An Air Distribution Ducting System Of An Air-Conditioning Unit Of A Commercial Aircraft**," claiming priority to German Application No. DE 10 2006 037 537.8, filed August 10, 2006. This assignment includes this U.S. application, any U.S. continuing application based thereon and/or substituted therefor, and any and all United States patents granted for any of the inventions or improvements disclosed in this application. This assignment authorizes the Assignee to apply in all countries, in our names or in its own name, for any patents, utility models, design registrations or other rights of exclusion or for inventors' certificates for these inventions and improvements. Also, to fully effectuate this assignment, we agree for ourselves and our heirs, legal representatives and assigns, and without further compensation, to perform such lawful acts and to sign such further applications, assignments, preliminary statements, and/or other lawful documents, as the Assignee may reasonably request.
