29) U.S. Patent Application No. 11/444,921, filed June 1, 2006, and entitled "Diffuse Optical Tomography System and Method of Use";

Now, therefore, for valuable consideration furnished by Assignee to Assignor, the receipt and sufficiency of which is hereby acknowledged, the Assignor hereby, without reservation:

1. Assigns, transfers, and conveys to Assignee the entire right, title, and interest in and to said inventions and discoveries, said Letters Patents of the United States of America and applications for Letters Patent of the United States of America, any and all other applications for Letters Patent on said inventions and discoveries in whatsoever countries, including all divisional, renewal, substitute, continuation, continuation-in-part, and Convention applications based in whole or in part upon said inventions or discoveries, or upon said applications, and any and all Letters Patent, reissues, reexaminations, and extensions of Letters Patent granted for said inventions and discoveries or upon said applications, and every priority right that is or may be predicated upon or arise from said inventions, said discoveries, said applications, and said Letters Patents;
2. Authorizes Assignee to file patent applications in any or all countries on any or all of said inventions and discoveries in the name of Assignee or otherwise as Assignee may deem advisable, under the International Convention or otherwise;
3. Authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all said Letters Patents and/or all applications for Letters Patent to Assignee, as assignee of the entire right, title, and interest therein or otherwise as Assignee may direct;

In testimony of which the undersigned, acting for the Assignor, executed this Assignment as an instrument under seal on the date indicated below.

Given and signed in Sterling, Virginia, United States of America this day 6th of the month of April of the year 2007.
