Capitalized terms used and not otherwise defined herein have the meanings given to them in the Purchase Agreement.

WHEREAS, on August 10, 2006, Assignor converted from Thales Navigation Solutions, Inc., a Delaware corporation, into Thales Navigation Solutions, LLC, a limited liability company, under the Delaware General Corporation Law and the Limited Liability Company Act.

NOW, THEREFORE, by this Instrument, expressly intending to be legally bound hereby, and in consideration of the mutual covenants and agreements contained herein, the parties do hereby agree as follows:

1. Assignor hereby transfers, assigns, delegates, conveys and delivers to Assignee and its successors and assigns, forever, all rights, title and interest of Assignor in and to all assets, rights and properties of every nature, kind and description, whether tangible or intangible, owned, leased or licensed, real, personal or mixed used in or held for use in Assignor's business (excluding the Retained Assets, as defined below) (collectively, the "*Transferred Assets*"), including, without limitation, the following:

(a) all furniture, fixtures, machinery and equipment, including, without limitation, office equipment, supplies and other tangible personal property;

(b) all inventories;

(c) all contracts, purchase orders, instruments and other agreements (whether written or oral) to which Assignor is a party or by which its assets or properties are bound;

(d) all prepaid expenses, advance payments, deposits, surety accounts and other similar deposits, including, without limitation, deposits with suppliers;

(e) all accounts and notes receivable, unbilled revenues, reimbursable costs and expenses and other claims for money due to Assignor;

(f) all cash and cash equivalents; and

(g) all intellectual property rights (in whatever form or medium), including, without limitation (i) all patents including those listed in Exhibit B hereto, trademarks, service marks, trade dress, logos, trade names, copyrights, art and mask works, and all registrations, applications and associated goodwill for each of the foregoing; (ii) all licenses, computer software (including source code developed by Assignor employees of Assignor for the purposes of Navigation Solutions, LLC), computer programs, computer data bases and related documentation and materials; and (iii) all data, documentation, trade secrets, confidential business information (including ideas, compositions, inventions, know-how, discoveries, research and

development information, drawings, designs, product designs, plans, proposals and technical data and the "look and feel" of the NeverLost screens as provided for in Section 3(b) of the Supplemental Supply Agreement between Navigation Solutions, L.L.C. and Assignee).

2. Notwithstanding anything to the contrary in this Instrument, Assignor is not transferring, assigning, conveying or delivering any rights, title or interest to the assets and properties set forth on Exhibit A hereto (collectively, the "Retained Assets"). This Instrument shall in no way be construed to have transferred any interest whatsoever in the Retained Assets.

3. Notwithstanding anything to the contrary in this Instrument, in the event that an assignment or purported assignment by Assignor to Assignee of any contract, or of any claim, right or benefit arising thereunder or resulting therefrom, without the consent of the other parties thereto or any appropriate permit therefore, would constitute a breach thereof or would not result in Assignee receiving all of the rights of Assignor thereunder, such contract(s) shall be deemed not to have been assigned by Assignor to Assignee if such consent of the other parties thereto is not obtained. In such case, to the extent possible, (i) the beneficial interest in or to any such contract, or of any claim, right or benefit arising therefrom (collectively, the "**Beneficial Rights**"), shall in any event pass as of the date hereof to Assignee under this Agreement, and (ii) pending such consent or approval, Assignee shall assume or discharge the liabilities of the Assignor under such Beneficial Rights as agent for the Assignor, and Assignor shall act as Assignee's agent in receipt of any benefits, rights or interests received from the Beneficial Rights. Assignor and Assignee shall use reasonable best efforts (and bear their respective costs) without payment of any material fees, penalties or other amounts to any third party to obtain or secure any and all consents or approvals that may be necessary to effect the assignment of contracts, or of any claims, rights or benefits arising therefrom, underlying the Beneficial Rights. Assignor and Assignee shall make or complete such assignments as soon as reasonably practicable and cooperate with each other in any other reasonable arrangement designed to provide for Assignee the Beneficial Rights including enforcement at the cost and for the account of Assignor of any and all rights of Assignee against the other party thereto, and to provide for the discharge by Assignor of any liability under such contracts.

4. ASSIGNOR MAKES NO REPRESENTATIONS OR WARRANTIES CONCERNING THE TRANSFERRED ASSETS, AND EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

5. Assignor also agrees to execute such further documents as Assignee may reasonably request to enable Assignee to make any filings for registration or recordings of assignment of such Intellectual Property.

6. Assignee hereby assumes and becomes responsible for and shall hereafter pay, perform and discharge as and when due and payable all of the liabilities and obligations (other than liabilities with respect to existing breaches or defaults by Assignor thereunder or relating to or arising from actions, events or circumstances existing on or prior to the date hereof) related to or arising out of the Transferred Assets; provided that Assignee shall have the right to contest any such liabilities and obligations in the ordinary course of business.

7. The parties hereby agree that this Instrument and the transactions contemplated herein shall be disregarded for U.S. federal income tax purposes and applicable provisions of state, local or foreign tax law.

8. This Instrument inures to the benefit of and binds each of the parties hereto and their respective successors and assigns.

**[Signatures on Following Page.]**

IN WITNESS WHEREOF, the parties have caused this Instrument to be duly executed as of the date first written above.
