WHEREAS, Pioneer Energy Products, LLC , a Pennsylvania corporation having a mailing address of P.O. Box 1061, Franklin, Pennsylvania 16323 ("Assignee"), is desirous of acquiring all of Assignor's right, title, and interest in and to the Patents and Patent Applications.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, transfers and sets over to Assignee, and Assignee accepts, all right, title, interest, claim and demand of every kind and nature, legal or equitable in and to the Patents and Patent Applications listed on Schedule A attached hereto and any patents in the United States of America or any other country which may be granted on said Patents and Patent Applications, or any divisional, continuation, continuation-in-part, reissue, reexamination, extension, renewal or other applications or patents based in whole or in part thereon, as well as all inventions and discoveries disclosed or claimed therein (collectively, the "Patents"), and further including all applications for intellectual property protection, including, without limitation, all applications for patents, utility models and designs which may hereafter be filed for the inventions embodied in said Patents and Patent Applications in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same priority rights derived from said Patent Applications and Patents under Patent Laws of the United States, the International Convention For the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable.
