in consideration of at least one of: (a) payments from, (b) interest in, and (c) agreements with Avasca Medical, Inc. (hereinafter "**Assignee**"), receipt and sufficiency of which is hereby acknowledged, mailing address 12 Black Mesa, Santa Fe, New Mexico 87506-7774, each of us have agreed, among other things, to assign to Assignee, its successors and assigns, all rights to the inventions described in the above-referenced patent applications.

Therefore, each of us hereby sells, assigns, and transfers unto Assignee my entire right, title, and interest in and to said inventions, the patents and patent applications set forth above, and in and to all resulting patents and patent applications, wherever they may be granted, including U.S. and foreign patents and applications, and including divisions, continuations, continuations-in-part to the extent claiming said inventions, reissues, renewals, re-examinations or extensions thereof. Each of us hereby authorizes and requests the Commissioner of Patents and Trademarks or other appropriate agency or official to issue said patents to Assignee, of the entire right, title, and interest in and to the same, to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

Each of us covenants with Assignee that my interest in the rights and property herein conveyed is free and clear of any encumbrance and that each of us have full right to convey the same as herein expressed. Each of us agrees, at the request of Assignee, to make, execute, and deliver to Assignee, or other party prosecuting patent applications on this invention, any and all papers, documents, affidavits, applications, statements or other instruments relating to said invention, take all rightful oaths and do all acts as may reasonably be required of me in or incident to the prosecution of any or all applications on said invention or in the adjustment or settlement of any interferences or other actions or proceedings that said applications or patents thereon may encounter or in which they may become involved.
