## ASSIGNMENT OF INVENTION

WHEREAS, Bradley P. Fuhrman, residing at 83 Ashland Avenue, Buffalo, New York 14222; and Mark S. Dowhy, residing at 4601 Clinton Street, West Seneca, New York 14224; have invented a certain new and useful improvement in a *Gas Delivery System And Method* (“the Invention”) for which a patent application (the “Application”) was filed with the United States Patent and Trademark Office on August 3, 2007 which bears serial number 11/833,509;

AND WHEREAS, The Research Foundation of State University of New York, having a place of business at 1576 Sweet Home Road, Amherst, New York 14228, is desirous of acquiring all interest in the Invention, the Application, and in any Letters Patent which may be granted therefor;

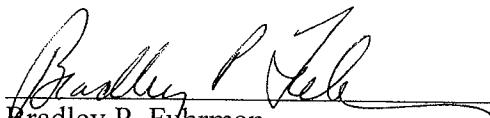

AND WHEREAS, Bradley P. Fuhrman and Mark S. Dowhy desire that their ownership of the Invention, the Application and any Letters Patent which may be granted therefor be vested solely with The Research Foundation of State University of New York;

NOW THIS INDENTURE WITNESSETH, that for the sum of one dollar and other valuable consideration to each of us in hand paid, the receipt of which is hereby acknowledged, we hereby assign, sell, and transfer unto The Research Foundation of State University of New York our entire right, title, and interest in the Invention, the Application, and in and to any and all Letters Patent of the United States, and countries foreign thereto, which may be granted for the Invention, and in and to any and all priority rights, rights under the International Convention For The Protection Of Industrial Property, rights under the Patent Cooperation Treaty, and other benefits accruing or to accrue to either or all of us with respect to the filing of applications for patents or securing of patents in the United States and countries foreign thereto.

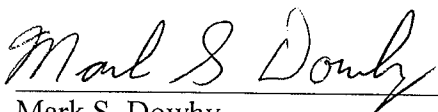

And we hereby authorize and request any patent that issues to be issued to The Research Foundation of State University of New York as the assignee of each of our entire right, title, and interest thereto.

And we further agree to sign and properly execute such necessary and lawful papers for applications for patents, for filing subdivisions of said applications for patents, and for obtaining any reissue or reissues of any patent which may be granted for the aforesaid invention, as the assignee thereof shall hereafter require and prepare at its own expense.
