have made an invention comprising new and useful improvements in **SYSTEM AND PROCESS FOR AUTOMATED MICROCONTACT PRINTING**, for which a patent application for Letters Patent of the United States of America and other countries was filed on September 10, 2001 as U.S. Serial No. 09/950,383.

WHEREAS **SURFACE LOGIX, INC.**, having a place of business at 50 Soldiers Field Place, Brighton, Massachusetts 02135, United States of America, and who, together with its successors and assigns, is hereinafter called "Assignee," is desirous of acquiring the title, rights, benefits, and privileges in the patent application hereinafter recited,

NOW, THEREFORE, for good and valuable consideration furnished by Assignee to us, receipt and sufficiency of which we hereby acknowledge, we hereby, without reservations:

1. Assign, transfer, and convey to Assignee the entire right, title, and interest in and to said invention, said patent application for Letters Patent of the United States of America, any and all other applications for Letters Patent on said invention in any and all countries, including all divisional, renewal, substitute, continuation, and Convention applications based in whole or in part upon said invention, or upon said patent application, and any and all Letters Patent, reissues, and extensions of Letters Patent granted for said invention or upon said patent application, and every priority right that is or may be predicated upon or arise from said invention, said patent application, and said Letters Patent(s).
