PATENT ASSIGNMENT

This Assignment of Patents (this "Assignment") is made as of December 20, 2007 by K-TEK, L.L.C., a Louisiana limited liability company ("Assignor"), to K-TEK CORP., a Delaware corporation ("Assignee").

WITNESSETH

WHEREAS, Assignor has filed with the United States Patent and Trademark Office the Letters Patent applications set forth on Schedule A hereto (the "Patent Applications"), and owns the Letters Patent issued by the United States Patent and Trademark Office set forth on Schedule A hereto (the "Patents", and collectively with the Patent Applications, the "Patent Rights").

WHEREAS, pursuant to an Asset Purchase Agreement dated as of December 20, 2007 (the "Purchase Agreement") by and among Assignee, Assignor, the holders of all the membership interests of Assignor and Tony W. Harper, Assignor desires to assign to Assignee all of Assignor's right, title and interest in and to the Patent Rights.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants and agreements contained in the Purchase Agreement and the covenants and agreements in this Assignment and to induce Assignee to consummate the transactions contemplated by the Purchase Agreement, Assignor agrees as follows:

1. Assignor hereby sells, assigns, transfers and delivers to Assignee, its successors and assigns, the entire and exclusive right, title and interest in, to and under the Patent Rights, and all other patent rights that may be based thereon, including all foreign and domestic Letters Patent and applications for Letters Patent, and any continuation, continuation-in-part, divisional, substitute, reissues, re-examinations, and extensions thereof, to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors and assigns, to the end of the term or terms for which such Letters Patent may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, together with all claims for damages by reason of past infringement of the Patent Rights, with the right to sue for and collect on such claims for its own use and enjoyment, and for the use and enjoyment of its successors and assigns.

2. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, or other proper governmental authority, whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to Assignee and its successors, assigns and other legal representatives in accordance with the terms of this instrument.
