ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

WHEREAS, Marianne T. Cook, of 1515 North State Highway 17, Clarksville, Georgia 30523, hereinafter referred to as "Assignor," is the owner by assignment of the following patents and patent applications and the inventions described and set forth therein:

- (1) U.S. Patent Application No. 10/623,077, filed 18 July 2003, for Viewing Enhanced Apparatus for Visibility Impaired Fluid, now **U.S. Patent No. 6,900,954** issued 31 May 2005; and
- (2) European Patent Application No. **03776144.6** filed 18 July 2003 for Viewing Enhanced Apparatus for Visibility Impaired Fluid;

WHEREAS, David D. Cook of 4502 E. Janice Way, Phoenix, Arizona 85032, hereinafter referred to as "Assignee," is desirous of acquiring an interest in the inventions, the patents and in the applications and in any Letters Patent and Registrations, which may be granted on the same, in the U.S. and any other country;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor confirms that Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the inventions, patents and applications and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which have been granted and may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the application. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which have been granted and may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.
