PATENT ASSIGNMENT

This Assignment is made by William S. Wetherington, of New Bern, North Carolina (hereinafter "Assignor"), to Wetherington Enterprises, LLC, a corporation duly organized and existing under the laws of the State of North Carolina having its principal office and place of business at 2506 Steeple Chase Drive, New Bern, North Carolina 28562 (hereinafter "Assignee").

WHEREAS, Assignor has invented certain new and useful improvements concerning APPARATUS AND METHOD FOR MIXING A DRY CHEMICAL CONTAINED WITHIN A CONTAINER and obtained Letters Patent of the United States of America thereon, which Letters Patent issued November 19, 2002 as U.S. Patent No. 6,481,884.

AND, WHEREAS, Assignee desires to acquire the entire right, title, and interest in the Letters Patent, related applications, and inventions related thereto.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor by these presents does hereby sell, assign, transfer, and convey unto the Assignee, its successors and assigns, the entire right, title, and interest in and to the Letters Patent, related applications, and inventions related thereto, and in any improvements previously or in the future made or acquired by Assignor, and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term or terms for which said Letters Patent are or may be granted, or reissued, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, together with all claims for damages by reason of past infringement of the Letters Patent, with the right to sue for and collect the same for Assignee's own use, and for the use of Assignee's successors, assigns, or other legal representatives.

Assignor further warrants and represents that, at the time of the execution and delivery of these presents, Assignor possesses full title to the Letters Patent, related applications, and inventions related thereto, and that he has the unencumbered right and authority to make this assignment.

Assignor further covenants and agrees, and likewise binds his heirs, legal representatives and assigns, to promptly communicate to said Assignee or its representatives any facts known to him relating to said Letters Patent, related applications, and inventions related thereto, to testify in any interference or legal proceedings involving the same, to execute any additional papers which may be requested to vest in the Assignee complete title to the Letters Patent, related applications, and inventions related thereto, without further compensation, but at the expense of said Assignee, its successors, assigns and other legal representatives.

Executed this 10th day of January, 2008.

William S. Wetherington (Seal)
