Assignment

For good and valuable consideration, the receipt, sufficiency and adequacy of which are hereby acknowledged, the undersigned, James N. Britton, assigns to Deepwater Corrosion Services, Inc. (the "Assignee"), having a place of business at 10851 Train Court, Houston, Texas 77041, his entire right in:

all inventions which are disclosed in the U.S. patent application, which has been executed by the undersigned, and is entitled: "SUBSEA SOLAR POWERED TEST STATION WITH VOLTAGE READOUT", filed November 14, 2005;

all divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such inventions or improvements to those inventions;

all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such inventions or improvements to those inventions; and the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States.

The undersigned authorizes and requests the issuing authority to issue any and all United States and foreign patents granted on such inventions to the Assignee.

The undersigned warrants and covenants that no assignment, grant, mortgage, license, or other agreement affecting the rights and property conveyed by this Assignment has been or will be made to others by the undersigned, and that the full right to convey the same is possessed by the undersigned.

The undersigned covenants, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this Assignment. The undersigned will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such inventions. The undersigned will execute all rightful oaths, declarations, assignments, powers of attorney and other papers. The undersigned will communicate to the Assignee all facts known to the undersigned relating to such inventions and the history of such inventions. The undersigned will generally do everything possible which the Assignee shall consider desirable for vesting title to such inventions in the Assignee, and for securing, maintaining and enforcing proper patent protection for such inventions.

This Assignment shall be binding on the heirs, assigns, representatives, and successors of the undersigned, and shall extend to the successors, assigns, and nominees of the Assignee.
