BAGGAGE TRANSPORTATION SECURITY SYSTEM AND METHOD

as described in U.S. Patent Nos. 6,512,964; 6,807,458; 7,079,921; 7,096,089 (the "Patents"), and U.S. Patent Application filed on March 14, 2005, having been assigned Serial Number 11/081,053 (the "Patent Application"), and any and all improvement(s) of the invention (hereinafter, the "Invention").

This assignment covers the Patents, Patent Application, and the Invention, all patent applications for which the inventor(s) has applied, may apply, or could apply, whether in the United States or in any other country, including, without limitation, and any and all continuations, continuations-in-part, divisional, and renewals of and substitutes for any said application for said patent, and all the rights and privileges under any and all letters patent that may be granted therefore in any country, and any reissues, or reexaminations, or extensions of said letters patent (hereinafter, collectively "Letters Patent"). I request that any and all Letters Patent for said Invention be issued to said Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

I agree that, when requested, I will, without charge to said Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

I authorize and empower said Assignee, its successors, assigns and legal representatives or nominees, to apply for and receive Letters Patent in its own name, in the United States, its territorial possessions, and all foreign countries without further written or oral authorization from me; and that when requested to carry out in good faith the intent and purpose of this assignment, at the expense of said Assignees, but without charge to said Assignees, its successors, assigns and legal representatives or nominees, the undersigned will execute all continuations, continuations-in-part, divisionals, substitutes, reissues and extensions thereof, execute all rightful oaths, assignments and powers of attorney and other papers, testify in any legal proceeding or quasi legal proceedings; communicate to said Assignees, its successors, assigns and legal representatives or nominees, all facts known to the undersigned relating to said invention

and the history thereof; and generally do everything possible which said Assignees, its successors, assigns and legal representatives or nominees, shall consider desirable for aiding in securing, maintaining and enforcing proper patent protection for said invention and for vesting title to said invention and all applications for patents on said invention in said Assignees, its successors, assigns and legal representatives or nominees.

I hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International Convention which may henceforth be substituted for it.
