GRANT OF SECURITY INTEREST IN PATENT RIGHTS

This Grant of Security Interest in Patent Rights, dated January 29, 2008 is between **SCHENCK ACCURATE, INC.** and **STOCK EQUIPMENT COMPANY INC.**, each a Delaware corporation, (each a "Security Provider", collectively "Security Providers") and **DRESDNER BANK AG, NIEDERLASSUNG LUXEMBURG**, a corporation duly organized under and pursuant to the laws of Luxembourg (the "Security Agent").

WHEREAS the Security Providers own certain rights in the material patents (the "Patents"), and/or the patent applications (the "Patent Applications"), and have certain rights in patent licenses (the "Patent Licenses" and collectively with the Patents and the Patent Applications, the "Patent Rights"), as specifically defined in the attached Schedule of Patent Rights;

WHEREAS the Security Providers and the Security Agent are parties to a security agreement dated as even date herewith (the "Security Agreement") and all ancillary documents entered into in connection with such Security Agreement, all as may be amended from time to time (hereinafter referred to collectively as the "Loan Agreement");

WHEREAS pursuant to the terms of the Loan Agreement, the Security Providers have granted to the Security Agent a security interest in all right, title and interest of the Security Providers, to and under all the Patent Rights, whether presently existing or hereafter arising or acquired, and all products and proceeds thereof, including, without limitation, any and all causes of action which may exist by reason of infringement thereof for the full term of the Patents, to secure the obligations under the Loan Agreement;

NOW, THEREFORE, in consideration of the premises contained herein, the Security Providers agree with the Security Agent as follows:

To secure the complete and timely satisfaction of its obligations under the Loan Agreement, the Security Providers hereby grant and convey to the Security Agent a continuing security interest in and lien on all of the Security Providers' right, title and interest in and to all Patent Rights listed on Schedule A hereto (as may be amended from time to time) and the proceeds thereof (such as, by way of example, license royalties and proceeds of infringements, all rights corresponding thereto throughout the world) and all reissues, divisions, continuations, reexaminations, substitutions, renewals, extensions and continuations-in-part thereof, all foreign applications claiming priority to any such applications or patents, inclusively, and all rights under the Hague Convention, the Paris Convention for the Protection of Industrial Property, and under the Patent Cooperation Treaty. The Security Agent is authorized to file this Agreement with the United States Patent and Trademark Office or any other governmental agency it deems necessary or desirable in order to secure and perfect its rights under this Agreement or the Loan Agreement.

The Security Providers hereby covenant and warrant to the Security Agent, its successors, legal representatives, and assigns, that, at the time of execution and delivery of this Agreement, the Security Providers are the sole and lawful owner of the entire right, title, and interest in and to the Patent Rights free and clear of any liens or encumbrances, and that the Security Providers have good and full right and lawful authority to sell and convey the same in the manner herein set forth; and

The Security Providers further covenant and agree to assist the Security Agent, its successors, legal representatives, and assigns to sign all papers and documents, take all lawful oaths, and do all acts necessary or required to be done to perfect and record the security interest contemplated herein and to assist the Security Agent with the procurement, maintenance, enforcement and defense of the Patent Rights without charge to the Grantor, its successors, legal representatives, and assigns, but at the cost and expense of the Security Agent, its successors, legal representatives, and assigns.
