CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

For valuable consideration, the receipt and sufficiency of which is hereby acknowledged, on this 2nd day of Feb, 2008, Morgan James Colmer, residing at 21A Station Road, Cambridge, MA ("Assignor"), to ensure that certain Assignment of Patent Rights by Global Silicon Limited, a company registered in England and Wales with number 03456323, made effective 21 March 2007 is completed, does hereby sell, assign, and transfer to GS IP Limited Liability Company, a Delaware limited liability company, having an address at 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808 ("Assignee"), the full extent of his right, title, and interest in and to any and all of the following (collectively, the "Rights"):

1. U.S. Patent Application Serial No. US 11/761,746, filed on 12 June 2007 ("the US Application");
2. Priority United Kingdom Application No. GB 0611639.6, filed on 12 June 2006, to which the US Application claims priority (the "Priority Application");
3. All inventions claimed or described in any or all of the US Application or the Priority Application (collectively, "the Inventions");
4. All rights with respect to the Inventions, including all U.S. patents or other governmental grants or issuances that may be granted with respect to the Inventions or from any direct or indirect divisionals, continuations, continuations-in-part, or other patent applications claiming priority rights from the US Application or the Priority Application ("Potential Patents");
5. All reissues, reexaminations, extensions, or registrations of the Potential Patents;
6. All non-United States patents, patent applications, and counterparts throughout the world relating to any or all of the Inventions, the Priority Application, the US Application, or Potential Patents, including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances ("Foreign Rights"), and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
7. The right to claim priority rights deriving from the Priority Application or the US Application;
8. All causes of action and remedies related to any or all of the Priority Application, the US Application, the Inventions, Potential Patents, or Foreign Rights (including, without limitation, the right to sue for past, present, or future infringement, misappropriation or violation of rights related to any of the foregoing and the right to collect royalties and other payments under or on account of any of the foregoing); and
9. Any and all other rights and interests arising out of, in connection with, or in relation to the Priority Application, the US Application, the Inventions, Potential Patents, or Foreign Rights.

Assignor will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives, and assigns deem necessary or desirable to perfect enjoyment of the Rights, conduct proceedings regarding the Rights (including any litigation or interference proceedings), or perfect or defend title to the Rights. Assignor requests the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be

US Patent Application Serial No. 11/761,746

granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives, and assigns and will be binding upon Assignor, his successors, legal representatives and assigns.
