CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

7th For valuable consideration, the receipt and sufficiency of which is hereby acknowledged, on this day of February, 2008, AI Acquisition, Inc., with an address at , (“Assignor”), to ensure that the assignment made effective August 23, 2007 and filed with the United States Patent and Trademark Office on August 23, 2007 at Reel/Frame 019733/0647, is completed, hereby sell, assign, and transfer to Arcessa Partners, LLC, a Washington company (“Assignee”), the full extent of all right, title, and interest in and to any and all of the following (collectively, the “Rights”):

1. U.S. Patent 6,516,337 (“the Patent”);
2. Patent Application Serial No. 09/419,405 filed on October 14, 1999, which issued as the Patent (the “Application”);
3. All inventions claimed or described in any or all of the Patent and the Application (collectively, “the Inventions”);
4. All rights with respect to the Inventions, including all U.S. patents or other governmental grants or issuances that may be granted with respect to the Inventions or from any direct or indirect divisionals, continuations, continuations-in-part, or other patent applications claiming priority rights from the Patent or the Application (“Potential Patents”);
5. All reissues, reexaminations, extensions, or registrations of the Patent or Potential Patents;
6. All non-United States patents, patent applications, and counterparts relating to any or all of the Inventions, the Application, the Patent, or Potential Patents, including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances (“Foreign Rights”), and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
7. The right to claim priority rights deriving from the Application;
8. All causes of action and remedies related to any or all of the Application, the Patent, the Inventions, Potential Patents, or Foreign Rights (including, without limitation, the right to sue for past, present, or future infringement, misappropriation or violation of rights related to any of the foregoing and the right to collect royalties and other payments under or on account of any of the foregoing); and
9. Any and all other rights and interests arising out of, in connection with, or in relation to the Application, the Patent, the Inventions, Potential Patents, or Foreign Rights.

Assignor will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives, and assigns deem necessary or desirable to perfect enjoyment of the Rights, conduct proceedings regarding the Rights (including any litigation or interference proceedings), or perfect or defend title to the Rights. Assignor requests the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives, and assigns and will be binding upon Assignor, its successors, legal representatives and assigns.
