PATENT ASSIGNMENT

WHEREAS, Advanced Ocular Systems Limited, whose address is Level 1, 117 Stirling Highway, Nedlands, Western Australia ("Assignor") has the rights in certain inventions or discoveries (or both) set forth in the patents and/or applications for patents attached hereto as Exhibit A (collectively, the "Patents"); and

WHEREAS, MINU, LLC, whose address is 321 Miles Branch Road, Pittsboro, North Carolina 27312 ("Assignee"), desires to acquire the entire right, title, and interest in and to said inventions and discoveries and the Patents.

A. NOW, THEREFORE, for good and valuable consideration furnished by Assignee to Assignors, including at least \$1.00, the receipt and sufficiency of which is hereby acknowledged and accepted, Assignors hereby, without reservation, jointly and severally:

1. Assign and convey to, and confirm in, Assignee and its assigns, the entire right, title, and interest throughout the world in, to, and under said inventions and discoveries, Patents, and any and all related continuations, continuations-in-part, divisionals, reissues, re-examinations, substitutions, renewals, re-registrations, refilings, extensions, and modifications (the "Related Filings"), and any and all applications for Letters Patent, or Letters Patent, on said inventions and discoveries in the United States or whatsoever countries, which may be granted thereon and all Related Filings thereof, and all rights of priority under International Inventions and Applications for Letters Patent which may hereafter be filed for said inventions and discoveries in any country or countries foreign to the United States, and all Letters Patent which may be granted for said inventions and discoveries in any country or countries foreign to the United States and all Related Filings thereof;
2. Authorize Assignee to file and prosecute patent applications in any or all countries on any or all of said inventions and discoveries in the name of Assignee or otherwise as Assignee may deem advisable, under the International Convention or otherwise;
3. Authorize and request the Commissioner of Patents of the United States of America and the empowered officials of all other governments to issue or transfer all said Patents to Assignee, as assignee of the entire right, title and interest therein or otherwise as Assignee may direct;
4. Warrant that the Assignor has not knowingly conveyed to others any right in said inventions, discoveries, applications or Patents or any license to use the same or to make, use or sell anything embodying or utilizing any of said inventions or discoveries; and that the Assignor has good right to assign the same to Assignee without encumbrance;
5. Bind the Assignor and their respective successors to do, upon Assignee's request and at its expense, but without additional consideration to the Assignor and respective successors, all acts reasonably serving to assure that the said inventions and discoveries, the said

22

patent applications and the said Patents shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by the Assignor or respective successors or representatives if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to the Assignor relating to said inventions and discoveries or the history thereof; and to furnish Assignee with any and all documents, photographs, models, samples and other physical exhibits in Assignor's control or in the control of respective successors and which may be useful for establishing the facts of conceptions, disclosures, and reduction to practice of said inventions and discoveries.

B. THIS Deed of Patent Assignment supersedes all previous agreements in respect of this subject matter; including the Deed of Patent Assignment dated 16 November 2007; and embodies the entire agreement between the parties.

C. WITHOUT limitation to any other part of this Agreement, Patent Application No.: US 11/102,586, entitled "Treatment of Ophthalmic Conditions" and filed on 8 April 2005, is not assigned by this Agreement and, furthermore, the Assignee hereby agrees that no rights to this Patent Application have been or ever were assigned by the Assignor to the Assignee.

D. THIS Deed of Patent Assignment may be executed in any number of counterparts which, when taken together, shall constitute one instrument.

IN WITNESS WHEREOF, the Assignor and Assignee have caused this instrument to be executed by their duly authorized representatives this 7 day of Feb., 2008. (CW)
