ASSIGNMENT

For good and valuable consideration, receipt of which is hereby acknowledged, I, Constantin Bulucea, hereby sell, assign, and transfer to National Semiconductor Corporation, a California corporation, having a place of business at 2900 Semiconductor Drive, Santa Clara, CA 95051, its successors, and assigns, the entire right, title, and interest throughout the world in my invention in:

Fabrication of Semiconductor Architecture Having Field-effect Transistors Especially Suitable for Analog Applications

for which I have executed a U.S. patent application 11/981,355 on 31 October 2007 and all national, regional, and international patent applications and patents of every country or region for said invention, including divisions, reissues, continuations, and extensions thereof, and all rights of priority resulting from the filing of said applications; I authorize the above-named assignee to apply for patents of foreign countries and regions for said invention, and to claim all rights of priority without further authorization from me; I agree to execute all papers useful in connection with said United States and foreign (including regional and international) applications, and generally to do everything possible to aid said assignee, its successors, and assigns, at their request and expense, in obtaining and enforcing patents for said invention in all countries and regions; and I request that the U.S. Patent and Trademark Office and all foreign (including regional) patent offices issue all patents granted for said invention to the above-named assignee, its successors, and assigns.
