CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

The undersigned assignor (the "**Assignor**") to ensure that the assignment made effective May 28, 2002 of Provisional Application No. 60/219,983 as part of the Asset Sale in US Bankruptcy Court For The Western District of Washington At Seattle, *In Re 360 Powered Corp*, No. 01-19381, is completed to include the continuation application and subsequent patent referenced herein, does hereby assign the inventions and improvements described and disclosed in the Applications and/or Patents described below (the "**Inventions**") and AI Acquisition, Inc., a Washington corporation ("**Assignee**"), desires to acquire the entire right, title and interest in and to the assets and rights convey, assigned, and transferred pursuant to this Assignment of Patent Rights, made effective as of October 17, 2003 (this "**Assignment**").

This assignment constitutes a settlement and release of any and all claims by Assignee against Assignor. Therefore, for valuable consideration, the receipt and sufficiency of which the Assignor acknowledges, the Assignor hereby irrevocably and unconditionally conveys, assigns, and transfers to Assignee, the full extent of all right, title, and interest in and to any and all of the following (the "**Rights**"):

- The Inventions and all rights in any country of the world with respect to the Inventions;
- United States patent number 7,032,000 and all letters patent, United States patents or other governmental grants or issuances that may be granted or issued with respect to the Inventions (the "**Patents**");
- United States patent application number 10/688,361 (filed October 17, 2003) and all divisions, continuations (in whole or in part), substitutions, renewal, or other applications claiming priority rights from the Patents and/or any such applications (the "**Applications**");
- All reissues, requests for continuing examinations, reexaminations, extensions or registrations of the Applications and/or the Patents;
- All non-United States patents, patent applications, and counterparts with respect of the Inventions, the Applications, and the Patents including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee;
- The right to claim priority rights deriving from the Patents and/or Applications and for Assignee to otherwise avail itself of the provisions of the international conventions governing the protection of inventions;
- All causes of action, remedies and other enforcement rights related to the Applications, the Inventions, and the Patents (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Applications, the Inventions, and the Patents);
- All rights to collect royalties and other payments under or on account of any of the Applications, the Inventions, and the Patents;
- Any and all other rights and interests arising out of, in connection with, or in relation to the Applications, the Inventions, and the Patents; and
- All documents related to the conception, diligence and reduction to practice of the Inventions and all domestic and international patent filing documents.

Assignor will not execute any writing or do any act conflicting with this Assignment of Patent Rights and, without further compensation, will execute all documents and do such additional acts as Assignee deems necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the respective patent office or governmental agency in each jurisdiction to grant or issue any and all letters patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of Assignee, as Assignee to the entire interest therein.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors or assigns, and anyone properly designated by them and will be binding upon the Assignor, his successors or assigns, and anyone properly designated by them.
