ASSIGNMENT OF APPLICATION

Whereas, I, Phillip M. Adams, hereinafter referred to as "Applicant," having a residence and post office address at 313 Pleasant Summit Drive, Henderson, Nevada 89012, have invented certain new and useful improvements in a method and apparatus entitled "PROGRAMMATIC TIME-GAP DEFECT CORRECTION APPARATUS AND METHOD," hereinafter called the "invention."

Preferred embodiments of said invention are disclosed in United States patent application Serial No. 10/005,135, filed on November 30, 2001, and now identified as File No. 2456.2.9 of the law firm of PATE PIERCE & BAIRD, Parkside Tower, 215 South State Street, Suite 550, Salt Lake City, Utah 84111.

Whereas, AFTG-TG, L.L.C., a corporation of the State of Utah, hereinafter referred to as "Assignee," having a principal place of business at 325 North Federal Heights Circle, Salt Lake City, Utah 84103, desires to secure the entire right, title and interest in said invention.

Now, therefore, in consideration of the sum of ONE DOLLAR (\$1.00), and other good and valuable consideration paid to me by the Assignee, the receipt of which is hereby acknowledged, I, the Applicant, by these presents do sell, assign, and transfer unto said Assignee:

The full and exclusive right to the said invention in the United States and the entire right, title, and interest in and to any and all divisions, continuations and continuations-in-part of said application, all previously filed provisional applications for which the present application seeks the benefit of an earlier filing date under 35 U.S.C. § 119, all reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

I hereby authorize and request the Director of the United States Patent and Trademark Office, and such Patent Office officials in foreign countries as are duly authorized by their patent laws, to issue any and all patents on said invention to the Assignee as the owner of the entire right, title, and interest in and to the same, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives, to the full end of the term for which said Patent may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

I hereby agree, without further consideration and without expense to me, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of me to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of my ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This Assignment and agreement shall be binding upon my heirs and legal representatives.

Phillip M. Adams
