GRANT OF SECURITY INTEREST

PATENTS

THIS GRANT OF SECURITY INTEREST, dated as of March 4, 2008, is executed by Andigilog, Inc., a Delaware corporation ("Debtor"), in favor of the Collateral Agent (as defined in the Security Agreement (as defined below)). The parties listed on Annex A hereto are sometime reference to herein as "Secured Parties."

A. Pursuant to a Secured Note Purchase Agreement, dated as of March 4, 2008 (the "Purchase Agreement"), among Debtor and Secured Parties, Secured Parties have agreed to extend certain secured loans to Debtor upon the terms and subject to the conditions set forth therein. Pursuant to a Security Agreement, dated as of March 4, 2008 (the "Security Agreement"), executed by Debtor in favor of the Collateral Agent on behalf of the Secured Parties, Debtor has secured its Obligations (as defined in the Security Agreement) under the secured promissory notes issued pursuant to the Purchase Agreement.

B. Debtor owns the letters patent, and/or applications for letters patent (including provisional patents), of the United States, more particularly described on Schedules 1-A and 1-B annexed hereto as part hereof (collectively, the "Patents");

C. Schedules 1-A and 1-B hereof constitute a complete list, as of the date hereof, of registrations or applications for registrations of Patents in or to which Debtor has any right, title, interest, claim or demand. After the date of the Security Agreement, the terms and provisions of which are hereby incorporated herein as if fully set forth herein, Debtor shall provide written notice to the Collateral Agent, in accordance with the provisions of Section 6(c) of the Security Agreement, of any addition or change which is necessary to be made to Schedules 1-A and 1-B in order to maintain such schedules' completeness or accuracy, and, further, Debtor shall provide such notice to the Collateral Agent within a reasonable period of time following the date of the event that is the basis for such addition or change, but in no case later than thirty (30) days following the date of such event.

D. Debtor hereby grants, to the Collateral Agent, for itself and on behalf of and for the ratable benefit of each of the Secured Parties, a security interest in all right, title and interest of Debtor in and to the Patents, together with any reissue, continuation, continuation-in-part or extension thereof, and all proceeds thereof, including any and all causes of action which may exist by reason of infringement thereof for the full term of the Patents (the "Collateral"), to secure the prompt payment, performance and observance of the Obligations;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, Debtor does hereby further grant to the Collateral Agent, for itself and on behalf of and for the ratable benefit of each of the Secured Parties, a security interest in the Collateral to secure the prompt payment, performance and observance of the Obligations.

Debtor does hereby further acknowledge and affirm that the rights and remedies of the Collateral Agent with respect to the security interest in the Collateral granted hereby are more fully set forth in the Security Agreement.

Upon termination of the security interest granted pursuant to the Security Agreement, the security interest granted herein shall terminate and all rights to the Patent and the Collateral shall revert to Debtor.

Secured Parties' addresses are set forth on Annex A hereto.

[Remainder of page intentionally left blank]

IN WITNESS WHEREOF, Debtor has caused this Grant of Security Interest in Patents to be executed as of the day and year first above written.
