ASSIGNMENT

WHEREAS, the undersigned, **Rodica Musat**, a United States citizen residing at 415 Grove Street, Haddonfield, New Jersey 08033, USA; **Frank A. Raneiro**, a United States citizen residing at 36 Crafton Avenue, Pitman, New Jersey 08071, USA; and **Thomas H. Rooney, Jr.**, a United States citizen residing at 112 Kendall Boulevard, Oaklyn, New Jersey 08107, USA (each hereinafter referred to as "ASSIGNORS"), are inventors of certain inventions or improvements for **LEAKAGE CURRENT PROTECTION DEVICE** for which an application for United States Letters Patent is being filed consecutively herewith, said application claiming priority to U.S. provisional patent application 60/896,193, filed on March 21, 2007, and assigned of record to Magnetic Metals Corporation; and

WHEREAS, **Magnetic Metals Corporation**, a corporation organized under the laws of the state of New Jersey, USA, and having a principal place of business at 1900 Hayes Avenue, Camden, New Jersey 08105, USA (hereinafter referred to as "ASSIGNEE") is desirous of acquiring the entire right, title and interest in and to the said inventions or improvements and in and to said provisional application, including the right to file the application internationally and all rights to claim priority, and in, to and under any and all Letters Patent which may be granted on or as a result thereof in the United States and in any and all other countries;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby freely acknowledged and intending to be legally bound, the said ASSIGNORS have sold, assigned, transferred and set over, and by these presents do hereby sell, assign, transfer and set over to said ASSIGNEE the entire right, title and interest in and to said inventions or improvements and said application and any and all continuations, divisions, and renewals of and substitutes for said applications, and in, to and under any and all Letters Patent which may be granted on or as a result thereof in the United States and its possessions and territories, in all countries, whether designated via the Patent Cooperation Treaty or otherwise, including the right to claim priority, and any reissue or reissues or extension or extensions of said Letters Patent, the same to be held and enjoyed by said ASSIGNEE, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by said ASSIGNORS had this assignment, sale and transfer not been made.

AND the undersigned ASSIGNORS hereby covenant that they have full right to convey the entire interest herein assigned, and have not executed and will not execute any agreement in conflict herewith, and further covenant and agree, each time request is made and without undue delay, to execute and deliver all such papers as may be necessary or desirable to perfect the title to said inventions or improvements, said applications and said Letters Patent in said ASSIGNEE, its successors, assigns, nominees, or legal representatives, and further agree to communicate to said

ASSIGNEE or to its nominees all known facts respecting said inventions or improvements, said applications and said Letters Patent, to testify in any legal proceedings, to sign all lawful papers, to execute all disclaimers and divisional, continuing, and reissue applications, to make all rightful oaths, and generally to do everything possible to aid said ASSIGNEE, its successors, assigns, nominees and legal representatives to obtain and enforce for its own benefit proper patent protection for said inventions or improvements in all countries in which ASSIGNORS, in its discretion, may choose to proceed;

AND ASSIGNORS hereby authorize and request the authorities of the United States, all PCT countries and other countries to issue to said ASSIGNEE the entire right, title and interest in and to any and all Letters Patent for said inventions or improvements, including any and all Letters Patent of the United States which may be issued and granted on or as a result of the application aforesaid, in accordance with the terms of this assignment.
