CORRECTIVE CONFIRMATORY ASSIGNMENT OF PATENT RIGHTS

This Corrective Confirmatory Assignment of Patent Rights (the "Assignment") is to correct both a clerical error in the assignee name and to confirm the intent of the assignment document executed by Subutai Ahmad, residing in Palo Alto, California and Kevin L. Hunter, residing in San Jose, California (together, the "Assignors") on April 3, 1998, and recorded at the United States Trademark and Patent Office on April 10, 1998 at Reel/Frame 009093/0982. This Assignment is effective on April 3, 1998, and is for valuable consideration, the receipt and sufficiency of which is hereby acknowledged. Assignors hereby sell, assign, and transfer to Electric Planet Interactive, a California company ("Assignee"), the full extent of all right, title and interest in and to any and all of the following (collectively, the "Rights"):

1. U.S. Patent 6,031,934 ("the Patent");
2. Patent Application Serial No. 08/950,404 filed on October 15, 1997, which issued as the Patent (the "Application");
3. All inventions claimed or described in any or all of the Patent or the Application (collectively, "the Inventions");
4. All rights with respect to the Inventions, including all U.S. patents or other governmental grants or issuances that may be granted with respect to the Inventions or from any direct or indirect divisionals, continuations, continuations-in-part, or other patent applications claiming priority rights from the Patent or the Application ("Potential Patents");
5. All reissues, reexaminations, extensions, or registrations of the Patent or Potential Patents;
6. All non-United States patents, patent applications, and counterparts relating to any or all of the Inventions, the Application, the Patent, or Potential Patents, including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances ("Foreign Rights"), and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
7. The right to claim priority rights deriving from the Application;
8. All causes of action and remedies related to any or all of the Application, the Patent, the Inventions, Potential Patents, or Foreign Rights (including, without limitation, the right to sue for past, present, or future infringement, misappropriation or violation of rights related to any of the foregoing and the right to collect royalties and other payments under or on account of any of the foregoing); and
9. Any and all other rights and interests arising out of, in connection with, or in relation to the Application, the Patent, the Inventions, Potential Patents, or Foreign Rights.

Assignors will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives, and assigns deem necessary or desirable to perfect enjoyment of the Rights, conduct proceedings regarding the Rights (including any litigation or interference proceedings), or perfect or defend title to the Rights. Assignors request the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives, and assigns and will be binding upon Assignors, their successors, legal representatives and assigns.
